Bonacell NP-F970, NP-F960

Bonacell NP-F970/NP-F960 Replacement Battery User Manual

Model: NP-F970, NP-F960

INTRODUCTION

Welcome to the Bonacell NP-F970/NP-F960 Replacement Battery User Manual. This guide provides essential information for the safe and effective use of your new batteries. These high-capacity lithium-ion batteries are designed as replacements for various Sony NP-F series batteries, offering extended power for compatible cameras, camcorders, and LED video lights.

NP-F960/NP-F970 BATTERY

Compatible with the Sony DCR-VX2100, DSR-PD150, DSR-PD170, FDR-AX1, HDR-AX2000, HDR-FX1, HDR-FX7, HDR-FX1000, HVL-LPB8, HVR-HD1000U, HVR-V1U, HVR-Z1P, HVR-Z1U, HXR-MC2000U, MVC-FDR1

SAFETY INFORMATION

Please read and follow all safety instructions carefully to prevent damage to the batteries, your devices, and to ensure personal safety.

General Safety Precautions:

- Do not disassemble the battery.
- Do not dispose of the battery in fire.
- Do not store the battery in temperatures over 60°C (140°F).
- Keep batteries away from water and moisture.
- Avoid short-circuiting the battery terminals.
- Keep out of reach of children.

Built-in Protections:

The batteries feature multiple layers of protection, including short-circuit, over-charge, over-voltage, over-current, and high-temperature protection, ensuring safety for both the batteries and your devices.

Safe and Reliable

Features with multi layers of protection with a high-quality, fire-resistant construction, ensure complete protection for you and your devices

Prevent Over Charging

Prevent Over Current

Prevent Over Voltage

Prevent Electronic Shock

Prevent Short Circuit

Prevent Over Temperature

PACKAGE CONTENTS

Your Bonacell NP-F970/NP-F960 Replacement Battery package includes:

- 2 x Bonacell NP-F970/NP-F960 Replacement Batteries

SETUP

Initial Charging:

Before first use, fully charge both batteries. Charging times can vary depending on the charger used; some users report initial charges taking up to 20 hours, while subsequent charges may be shorter (e.g., 14 hours or 6 hours from 50% charge). Always use a compatible charger.

No Memory Effect

High grade digital battery with advanced lithium technology ensures maximum battery life and power. It has no memory effect or other negative effects in recharging.

Image: A Bonacell battery being charged, illustrating the charging process.

Installation:

Align the battery with the battery compartment of your compatible device (camera, camcorder, or LED light) and slide it in until it clicks securely into place. Ensure correct polarity for proper function.

OPERATING INSTRUCTIONS

Compatibility:

These batteries are compatible with devices that use Sony NP-F mount batteries. This includes, but is not limited to, the following models:

- **Sony Camcorders/Cameras:** DCR-VX2100, DSR-PD150, DSR-PD170, FDR-AX1, HDR-AX2000, HDR-FX1, HDR-FX7, HDR-FX1000, HVL-LPB, HVR-HD1000U, HVR-V1U, HVR-Z1P, HVR-Z1U, HXR-MC2000U, MVC-FDR1, NEX-EA50UH, NEX-FS100U, NEX-FS700U.
- **Replacement for Sony Battery Models:** NP-F990, NP-F980, NP-F975, NP-F960, NP-F950, NP-F930, NP-F770, NP-F750, NP-F750SP, NP-F730, NP-F570, NP-F550, NP-F530, NP-F330.
- **Other Devices:** SAMTIAN, Neewer, YONGNUO, VILTROX series LED video lights, ring lights, Atomos recorders, and other devices using NP-F mount batteries.

No Memory Effect:

The advanced lithium technology ensures that the batteries can be charged or discharged as needed without losing capacity. This allows for flexible charging without negative effects on battery life or performance.

MAINTENANCE

Charging:

Always use a compatible charger. While the batteries have built-in overcharge protection, it is good practice to remove the battery once fully charged to prolong its lifespan.

Storage:

Store batteries in a cool, dry place, away from direct sunlight and extreme temperatures. For long-term storage, charge batteries to approximately 50-60% capacity to maintain cell health.

Cleaning:

Periodically clean the battery terminals with a dry, clean cloth to ensure good electrical contact with your device and charger.

TROUBLESHOOTING

Battery Not Charging:

- Ensure the charger is properly connected to a power source and the battery.
- Verify the charger is compatible with NP-F series batteries.
- Check for any visible damage to the battery or charger.

Battery Not Powering Device:

- Confirm the battery is fully charged.
- Ensure the battery is correctly inserted into the device's battery compartment.
- Verify that your device is listed as compatible. Some devices, such as the Sony Z5U, may display compatibility warnings with third-party batteries, even if they function for a short period.

Short Operating Time:

- Ensure the battery was fully charged before use.
- Operating in cold environments can significantly reduce battery performance and lifespan.
- Devices with high power consumption will drain the battery faster.

SPECIFICATIONS

Feature	Detail
Model	NP-F970/NP-F960 Replacement Battery
Cell Type	Lithium-Ion
Voltage	7.2V DC
Capacity	8700mAh (62.64Wh)
Dimensions	Approx. 2.78 x 2.36 x 1.51 inches
Item Weight	Approx. 11.2 ounces (per battery)
Manufacturer	Bonacell
ASIN	B0789HXHT9

The size & function same as the original
