MAINTENANCE

Cleaning LEGO Bricks:

To clean your LEGO bricks, use a mild soap solution and lukewarm water (not exceeding 40°C or 104°F). Gently scrub the bricks with a soft brush or cloth. Rinse thoroughly with clear water and allow them to air dry at room temperature. Avoid using hot water, harsh detergents, or abrasive materials, as these can damage the plastic.

Storage:

Store your LEGO bricks and assembled models in a cool, dry place away from direct sunlight. Prolonged exposure to sunlight can cause colors to fade. Keep bricks organized in containers to prevent loss and damage.

TROUBLESHOOTING

Missing Pieces:

If you find that a piece is missing from your new LEGO set, please contact LEGO Customer Service. They can assist with replacing missing elements.

Customization Limitations:

While the kit offers extensive customization, the number of specific colored bricks for certain features (e.g., hair, beards) may be limited. If you are attempting to create two figures with identical or very similar complex features (e.g., same color hair and beard requiring specific connection pieces), you may need to adapt your design or utilize alternative bricks from your existing LEGO collection.
