Waterdrop WD-C12

Waterdrop WD-C12 Coffee Water Filter Instruction Manual

For Braun KWF2 and Compatible Coffeemakers

1. INTRODUCTION

Thank you for choosing the Waterdrop WD-C12 Coffee Water Filter. This filter is designed to enhance your coffee experience by providing clean, purified water, which is essential for a great-tasting brew. Our filters utilize premium materials to ensure crisp and refreshing water, contributing to a mellow taste and intense aroma in your coffee.

2. COMPATIBILITY

The Waterdrop WD-C12 coffee water filter is designed as a replacement for Braun Brita KWF2 filters and is compatible with a wide range of Braun FlavorSelect and AromaDeluxe coffeemakers. This filter is interchangeable with the following Braun models:

- Braun 3105, 3106, 3107, 3112, 3115, 3116
- Braun KF600, KF590E, KF580, KF550, KF510
- Braun KF190, KF187, KF180, KF157, KF155, KF150, KF145, KF140, KFT16

Please note: This filter is an independent product and is not sourced by or sponsored by Braun.

3. SETUP AND INSTALLATION

Follow these steps to properly install your Waterdrop WD-C12 coffee water filter:

1. **Prepare the Filter:** Remove the new filter from its packaging. Rinse the filter under cold tap water for 15 seconds to remove any loose carbon particles.
2. **Locate Filter Holder:** Refer to your coffeemaker's manual to locate the water filter holder, typically found in the water reservoir.
3. **Insert Filter:** Place the rinsed filter into the designated filter holder. Ensure it is seated securely for a leak-free fit. No special tools are required for installation.
4. **Fill Reservoir:** Fill the coffeemaker's water reservoir with fresh water.
5. **Initial Flush (Optional but Recommended):** Run one or two brewing cycles with just water (no coffee grounds) to further flush the filter and ensure optimal performance. Discard this water.

LEAK-FREE FIT

Easy installation and operation,
no tools required.

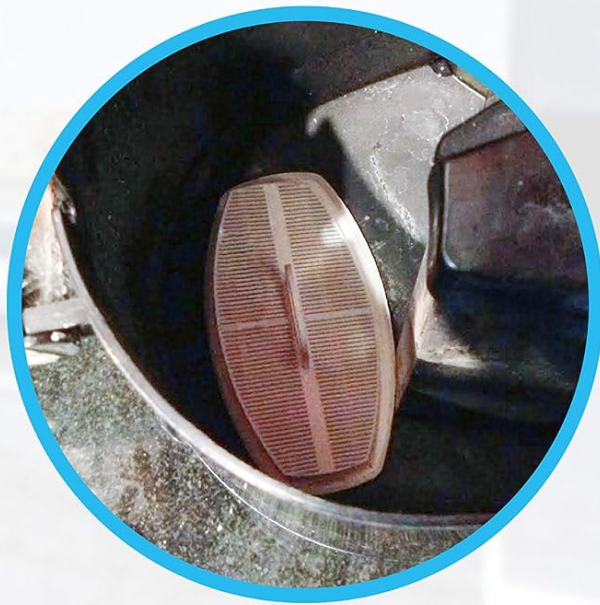

Image 3.1: The filter is designed for easy, leak-free installation into the coffeemaker reservoir.

4. OPERATING INSTRUCTIONS

Once the filter is installed, operate your coffeemaker as usual. The filter will continuously purify the water as it passes through, providing clean water for each brew. The premium material and reasonable structure of the filter ensure consistent water quality.

Image 4.1: The filter utilizes a multi-layer design for effective water purification.

Image 4.2: Enjoy great-tasting coffee brewed with purified water.

5. MAINTENANCE AND FILTER REPLACEMENT

For optimal performance and water quality, it is recommended to replace your Waterdrop WD-C12 coffee water filter every **2 months**, or sooner if you notice a decrease in water flow or coffee taste. Regular replacement ensures consistent filtration and extends the life of your coffeemaker.

Image 5.1: The filter is designed for a 2-month lifespan for optimal performance.

To replace the filter, simply remove the old filter from the holder, discard it, and follow the installation steps (Section 3) for the new filter.

6. TROUBLESHOOTING

If you encounter any issues with your Waterdrop WD-C12 filter, consider the following common solutions:

- **Slow Water Flow:** This often indicates that the filter is clogged or nearing the end of its lifespan. Replace the filter with a new one. Ensure the filter was properly rinsed before installation.
- **Unusual Taste in Coffee:** If your coffee tastes off, the filter may need replacement. Ensure the filter is correctly installed and that the initial flush cycle was performed.
- **Filter Not Fitting:** Double-check the compatibility list in Section 2 to ensure you have the correct filter for your coffeemaker model.

If these steps do not resolve the issue, please contact our customer support team for further assistance.

7. SPECIFICATIONS

Feature	Detail
Model Number	WD-C12
Brand	Waterdrop
Material	Resin
Product Benefits	Reduces Chlorine
External Testing Certification	TÜV SÜD
Unit Count	2.0 Count (per pack)
Item Weight	7.8 ounces
Package Dimensions	4.65 x 4.09 x 3.82 inches
UPC	840814140031
