Dream On Me 681-PG

Dream On Me 2-in-1 Lightweight Folding Portable Stationary Side Crib (Model 681-PG) User Manual

Pebble Grey

Introduction

This manual provides essential instructions for the safe assembly, operation, and maintenance of your Dream On Me 2-in-1 Lightweight Folding Portable Stationary Side Crib. Please read all instructions carefully before assembly and use. Keep this manual for future reference.

Safety Information

WARNING: Failure to follow these warnings and the assembly instructions could result in serious injury or death.

- Always ensure all parts are correctly assembled and securely fastened before use.
- Do not use this crib if any parts are missing, damaged, or broken. Contact Dream On Me for replacement parts.
- The maximum weight limit for this crib is 35 lbs.
- The stationary (non-drop side) rail system is designed for product safety. Do not attempt to modify it.
- Always engage the locking wheels when the crib is stationary to prevent accidental movement.
- Ensure the mattress used is no thicker than 2 inches to prevent entrapment hazards. The crib includes a 1-inch mattress.
- Keep cords, blinds, and other potential strangulation hazards away from the crib.
- This product meets applicable ASTM/CPSC standards.

Included Components

Your Dream On Me 2-in-1 Lightweight Folding Portable Stationary Side Crib package includes:

- Crib Frame (pre-assembled folding sections)
- 1-inch Crib Mattress
- Assembly Tool (Allen wrench)
- Instruction Manual (affixed to the mattress support board)

Setup and Assembly

The Dream On Me 2-in-1 crib is designed for quick assembly. The main frame components are pre-assembled and fold flat for shipping. The instructions are typically found on the mattress support board.

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify all included components are present.
2. **Unfold the Crib Frame:** Place the folded crib on a flat, stable surface. Gently pull the sides apart to unfold the main frame. Ensure the hinges lock into place.
3. **Install Mattress Support:** Position the mattress support board inside the crib frame. Secure it according to the instructions provided on the board itself, using the included assembly tool. Ensure it is level and firmly attached.
4. **Insert Mattress:** Place the provided 1-inch crib mattress into the crib.
5. **Lock Wheels:** If the wheels are not already locked, engage the locking mechanism on each wheel to prevent movement.

Operating Instructions

Crib to Playpen Conversion

The U.S. patented rail design allows for easy conversion from a crib to a playpen. Refer to the specific instructions on the mattress support board for detailed steps on adjusting the mattress height or converting the unit.

Folding for Storage or Transport

The crib features a unique hinge system that allows it to fold flat for compact storage or easy transport.

1. **Remove Mattress:** Take the mattress out of the crib.
2. **Unlock Hinges:** Locate and disengage the locking mechanisms on the hinges, typically found on the side rails.
3. **Fold Flat:** Gently push the sides of the crib inward until the unit folds flat. This can often be done with one hand.
4. **Secure in Folded Position:** Ensure any latches or clips engage to keep the crib securely folded.

Using Locking Wheels

The crib is equipped with dual hooded, locking wheels for easy maneuverability and stability.

- **To Move:** Unlock all wheels by flipping the lever on each wheel. Carefully push the crib to the desired location.
- **To Secure:** Once the crib is in position, engage the locking mechanism on all wheels to prevent accidental movement.

Maintenance

- **Cleaning:** Wipe the crib with a dry cloth. Avoid abrasive cleaners or strong chemicals that could damage the finish.
- **Inspections:** Regularly check all screws, bolts, and fasteners to ensure they are tight and secure. Periodically inspect the crib for any signs of damage or wear.
- **Storage:** When storing the crib, ensure it is clean and dry. Store in a cool, dry place away from direct sunlight or extreme temperatures.

Troubleshooting

Problem	Possible Cause	Solution
Crib wobbles or feels unstable.	Loose fasteners or uneven surface.	Check and tighten all screws and bolts. Ensure the crib is on a flat, level surface.

Problem	Possible Cause	Solution
Crib does not fold flat easily.	Hinges are not fully disengaged or obstructed.	Ensure all hinge locking mechanisms are released. Check for any obstructions preventing the crib from folding smoothly.
Wheels do not lock or roll smoothly.	Debris in wheel mechanism or faulty lock.	Clean wheels and check for obstructions. Ensure the locking lever is fully engaged/disengaged. If issues persist, contact customer support.

Specifications

Model Number: 681-PG
