

## Moen 87235SRS

# Moen Tullis 87235SRS Spot Resist Stainless 1-Handle Deck Mount Pull-Down Kitchen Faucet Instruction Manual

## 1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Moen Tullis 87235SRS Spot Resist Stainless 1-Handle Deck Mount Pull-Down Kitchen Faucet. Please read these instructions thoroughly before beginning installation or use to ensure proper function and longevity of the product.

The Moen Tullis faucet features a pull-down spray wand with boosted stream and spray innovation, designed for enhanced functionality in your kitchen.

## 2. SAFETY INFORMATION

- Always turn off the main water supply before installing or servicing the faucet.
- Wear safety glasses and gloves during installation.
- If you are unsure about any part of the installation process, consult a qualified plumber.
- Ensure all connections are secure to prevent leaks.
- Do not use abrasive cleaners or harsh chemicals on the faucet finish, as this may damage the surface.

## 3. PACKAGE CONTENTS

Verify that all components are present before beginning installation. While specific contents may vary slightly, a typical package includes:

- Moen Tullis Pull-Down Kitchen Faucet Assembly
- Mounting Hardware (deck plate, mounting nut, washers)
- Hot and Cold Water Supply Lines
- Weight for Pull-Down Hose
- Optional Soap Dispenser (if included with model)
- Installation Tool (if applicable)

Image showing the Moen Tullis kitchen faucet in Spot Resist Stainless finish, featuring a high-arc spout, single handle, pull-down spray wand, and a matching soap dispenser.

## 4. SETUP AND INSTALLATION

---

This faucet is designed for deck-mount installation, typically requiring one or more holes in the sink or countertop. Refer to the included installation guide for detailed diagrams and step-by-step instructions specific to your model.

1. **Prepare the Installation Area:** Turn off water supply. Clear the area under the sink. Remove any existing faucet.
2. **Install Deck Plate (Optional):** If your sink has multiple holes and you are using the deck plate, place it over the holes.
3. **Mount the Faucet:** Insert the faucet body through the hole(s) in the sink/countertop. Secure it from underneath with the provided mounting hardware (washer, mounting nut).
4. **Connect Water Supply Lines:** Connect the hot and cold water supply lines from the faucet to your home's water supply valves. Ensure connections are tight but do not overtighten.
5. **Install Pull-Down Hose and Weight:** Connect the pull-down spray hose to the quick-connect fitting under the faucet. Attach the hose weight to the lowest point of the hose loop to ensure proper retraction.
6. **Test for Leaks:** Slowly turn on the main water supply. Check all connections for leaks. Operate the faucet to flush out any debris.
7. **Install Soap Dispenser (if applicable):** Follow separate instructions for installing the soap dispenser into an available hole.

*Note: Professional installation is recommended for optimal results and to ensure compliance with local plumbing codes.*

## 5. OPERATING INSTRUCTIONS

---

Your Moen Tullis faucet is designed for ease of use with a single handle and a versatile pull-down spray wand.

- **Water Flow and Temperature:**
  - Lift the single handle to turn on the water.
  - Move the handle left for hot water and right for cold water.
  - Adjust the handle's height to control water flow intensity.
- **Pull-Down Spray Wand:**
  - Grasp the spray wand and pull it down from the spout.
  - Press the buttons on the spray wand to switch between stream and spray functions.
  - The faucet features a boosted stream and spray for enhanced cleaning power.
  - When finished, guide the spray wand back into the spout. The hose weight will assist in retraction.

## 6. MAINTENANCE

Proper care will help maintain the finish and performance of your Moen Tullis faucet.

- **Cleaning the Finish:**
  - Clean the Spot Resist Stainless finish with a soft, damp cloth and mild soap.
  - Rinse thoroughly with warm water and dry with a soft cloth.
  - Avoid abrasive cleaners, harsh chemicals, or polishing waxes, as these can damage the finish.
- **Cleaning the Spray Nozzles:**
  - Mineral deposits can accumulate on the spray nozzles over time. Gently rub the rubber nozzles with your finger or a soft brush to dislodge deposits.
- **Cartridge Replacement:**
  - If the faucet begins to drip or experiences reduced flow, the cartridge may need to be replaced. Contact Moen customer support for assistance and genuine replacement parts.

## 7. TROUBLESHOOTING

| Problem                           | Possible Cause  | Solution  |
|-----------------------------------|---|---|
| Faucet Drips                      | Worn cartridge, loose cartridge nut, debris in cartridge.         | Ensure cartridge retaining nut is tightened. Replace cartridge if dripping persists. Flush water lines.           |
| Low Water Flow                    | Aerator clogged, supply lines kinked, water supply partially off. | Clean or replace aerator. Check supply lines for kinks. Ensure water supply valves are fully open.                |
| Spray Wand Does Not Retract Fully | Hose weight improperly positioned or obstructed.                  | Adjust the position of the hose weight. Ensure there are no obstructions under the sink preventing hose movement. |

| Problem                  | Possible Cause  | Solution  |
|--------------------------|---|---|
| Water Temperature Issues | Hot/cold supply lines reversed, water heater setting. | Verify hot and cold supply line connections. Check water heater settings. |
