Armitron 40/8309BLU

Armitron Sport Men's Digital Chronograph Resin Strap Watch

Model: 40/8309BLU | Brand: Armitron

PRODUCT OVERVIEW

The Armitron Sport 40/8309BLU is a robust digital chronograph watch designed for active lifestyles. It features a quartz movement with a multifunctional digital display, housed in a metallic grey resin case with a black top ring and blue accents. The watch is equipped with a durable black resin strap and offers various timekeeping functions.

KEY FEATURES

- **Digital Multifunctional Display:** Provides clear readouts for time, seconds, day, and date.
- **Chronograph:** Stopwatch function for precise time measurement.
- **Lap Time:** Allows recording of lap times during chronograph operation.
- **Alarm:** Programmable alarm function.
- **Dual Time:** Displays time for two different time zones simultaneously.
- **Military Time (24-hour format):** Option to display time in 24-hour format.
- **Backlight:** Illuminates the display for visibility in low-light conditions.
- **Water Resistance:** Rated to 100 meters (330 feet), suitable for swimming and snorkeling.
- **Durable Construction:** Metallic grey resin case, black top ring, and black resin strap.

SETUP GUIDE

Setting Time and Date

1. Press the **MODE** button (bottom left) repeatedly until the time setting mode is displayed (usually indicated by flashing digits).
2. Use the **RESET** button (top left) to select the digit or setting you wish to adjust (e.g., hours, minutes, year, month, day).
3. Use the **ST/STP** button (top right) to increase the selected value. Hold to rapidly advance.
4. Once all settings are correct, press the **MODE** button to exit the setting mode.

Setting the Alarm

1. Press the **MODE** button until the alarm setting mode is displayed.
2. Use the **RESET** button to select hours or minutes.
3. Use the **ST/STP** button to adjust the alarm time.
4. Press the **MODE** button to confirm and exit.
5. To activate/deactivate the alarm, press the **ALARM CHIME** button (middle left) in normal time mode.

OPERATING INSTRUCTIONS

Using the Chronograph (Stopwatch)

1. Press the **MODE** button until the chronograph mode is displayed (usually indicated by "CHRONO" or "STW").
2. Press the **ST/STP** button to start the stopwatch.
3. Press **ST/STP** again to pause/resume.
4. To record a lap time, press the **RESET** button while the stopwatch is running. The lap time will display briefly.
5. To reset the stopwatch to zero, ensure it is paused, then press the **RESET** button.

Dual Time Function

The dual time feature allows you to track a second time zone. To access and set it:

1. Press the **MODE** button until the dual time mode is displayed.
2. Use the **RESET** and **ST/STP** buttons to set the second time zone, similar to setting the main time.

Backlight Operation

To illuminate the display in dark conditions, press the **EL** button (bottom right). The backlight will typically stay on for a few seconds.

General Care

- Clean the watch regularly with a soft, damp cloth. Avoid harsh chemicals or abrasive materials.
- Rinse the watch with fresh water after exposure to salt water or chlorine.
- Avoid exposing the watch to extreme temperatures or direct sunlight for prolonged periods.

Battery Replacement

The watch uses a Lithium Metal battery. When the display fades or stops functioning, the battery needs replacement. The back case is secured with screws, allowing for user replacement. It is recommended to have the battery replaced by a qualified watch technician to ensure water resistance is maintained.

The Armitron Sport watch presented in its original packaging, a black and white box.

TROUBLESHOOTING

- **Display is blank or dim:** The battery may need replacement.
- **Buttons are unresponsive:** Ensure the watch is not in a locked mode (if applicable, refer to specific model instructions for lock features). If issues persist, a soft reset (removing and reinserting battery) might be necessary, but this should

- be done by a professional to preserve water resistance.
- **Time is inaccurate:** Re-set the time according to the "Setting Time and Date" instructions. If inaccuracy persists, the watch module may require servicing.
