PHILCO Citrus Turbo

Philco Citrus Turbo Juicer 1.5L 220V Instruction Manual

Model: Citrus Turbo

1. INTRODUCTION

Thank you for choosing the Philco Citrus Turbo Juicer. This manual provides essential information for the safe and efficient operation, maintenance, and care of your new appliance. Please read these instructions thoroughly before first use and keep them for future reference.

The Philco Citrus Turbo Juicer is designed for extracting juice from citrus fruits such as oranges, lemons, and limes. Its 1.5-liter capacity and automatic pressure activation make juicing simple and efficient.

2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions carefully before operating the appliance.
- Ensure the voltage of your electrical outlet matches the voltage specified on the appliance (220 Volts for this model).
- Do not immerse the motor base, cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock, or injury.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Always ensure the appliance is properly assembled before use.

Safety certification marks, including INMETRO and SGS OCP 0040, indicating compliance with Brazilian safety standards.

3. PRODUCT COMPONENTS

Familiarize yourself with the parts of your Philco Citrus Turbo Juicer:

1. **Protective Lid:** Covers the reamer and strainer.
2. **Reamer:** The cone-shaped part that extracts juice from the fruit.
3. **Pulp Strainer:** Separates pulp and seeds from the juice.
4. **Juice Pitcher (1.5L capacity):** Collects the extracted juice.
5. **Motor Base:** Contains the motor and power cord.

The Philco Citrus Turbo Juicer, featuring a transparent pitcher, black base, and a clear lid with the reamer visible.

This image displays the Philco Citrus Turbo Juicer with its transparent lid removed, revealing the reamer cone and the integrated pulp strainer, ready for juicing.

4. SETUP

Before first use, wash all removable parts (lid, reamer, strainer, pitcher) in warm, soapy water. Rinse thoroughly and dry. The motor base should only be wiped with a damp cloth.

1. Place the motor base on a stable, flat, and dry surface.
2. Place the juice pitcher onto the motor base, ensuring it is seated correctly.
3. Insert the pulp strainer into the juice pitcher.
4. Place the reamer onto the shaft in the center of the strainer.
5. Cover with the protective lid.
6. Plug the power cord into a 220V electrical outlet.

5. OPERATING INSTRUCTIONS

Follow these steps to extract juice from citrus fruits:

1. Cut the citrus fruit (e.g., orange, lemon) in half.
2. Remove the protective lid.
3. Place one half of the fruit onto the reamer.
4. Press down firmly on the fruit. The juicer will automatically start extracting juice due to its pressure activation feature.
5. Rotate the fruit slightly while pressing to ensure maximum juice extraction.
6. Release pressure to stop the juicer.
7. Repeat with remaining fruit halves until the desired amount of juice is collected in the pitcher.
8. Once finished, unplug the appliance from the power outlet.

Note: Do not operate the juicer continuously for more than 1 minute. Allow it to rest for a few minutes between uses to prevent overheating.

6. CLEANING AND MAINTENANCE

Proper cleaning and maintenance will ensure the longevity and optimal performance of your juicer. The removable parts make cleaning easy.

1. **Unplug:** Always unplug the juicer from the power outlet before cleaning.
2. **Disassemble:** Remove the lid, reamer, strainer, and juice pitcher from the motor base.
3. **Wash Removable Parts:** Wash the lid, reamer, strainer, and juice pitcher in warm, soapy water. Use a soft brush if necessary to remove pulp residue from the strainer. Rinse thoroughly under running water.
4. **Dry:** Dry all parts completely before reassembling or storing.
5. **Clean Motor Base:** Wipe the motor base with a damp cloth. Never immerse the motor base in water or any other liquid.
6. **Storage:** Reassemble the juicer or store the parts neatly in a dry place.

Caution: Do not use abrasive cleaners, scouring pads, or harsh chemicals on any part of the juicer, as this may damage the surfaces.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Juicer does not turn on.	Not plugged in; power outlet not working; appliance not assembled correctly.	Check power cord connection; test outlet with another appliance; ensure pitcher and reamer are correctly seated.
Motor stops during operation.	Overheating due to continuous use; excessive pressure on fruit.	Unplug and let cool for 10-15 minutes; reduce pressure on fruit.
Poor juice extraction.	Fruit not pressed firmly enough; fruit not rotated; strainer clogged.	Apply firm, even pressure and rotate fruit; clean the strainer.

Problem	Possible Cause	Solution
Excessive pulp in juice.	Strainer not properly seated or damaged.	Ensure strainer is correctly in place; inspect strainer for damage.

8. SPECIFICATIONS

- **Brand:** PHILCO
- **Model:** Citrus Turbo
- **Color:** Black
- **Capacity:** 1.5 Liters
- **Power Source:** Electric with cord
- **Voltage:** 220 Volts
- **Material:** Plastic and Metal
- **Product Dimensions (D x W x H):** 20 cm x 24 cm x 24.4 cm
- **Item Weight:** 1030 Grams
