## MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your remote control.

■ **Cleaning:**

Wipe the remote control with a soft, dry cloth. For stubborn dirt, lightly dampen the cloth with water and a mild detergent, then wipe dry immediately. Do not use abrasive cleaners, alcohol, or solvents, as these can damage the surface.

■ **Battery Replacement:**

Replace batteries when the remote's response becomes sluggish or the display dims. Always replace both batteries at the same time with new ones of the same type (AAA). Remove batteries if the remote will not be used for an extended period to prevent leakage.

■ **Storage:**

Store the remote control in a cool, dry place away from direct sunlight, extreme temperatures, and high humidity when not in use.
