SETUP AND STORAGE

Nescafe Cafe De Olla Instant Coffee is ready for immediate use upon opening. No complex setup is required.

Storage Guidelines:

- Store the product in a cool, dry place, away from direct sunlight and strong odors.
- Ensure the lid is tightly closed after each use to maintain freshness and prevent moisture absorption.
- Avoid storing in humid environments, which can affect the coffee's texture and flavor.

OPERATING INSTRUCTIONS (PREPARATION)

Follow these simple steps to prepare a delicious cup of Nescafe Cafe De Olla Instant Coffee:

- Measure:** Add one spoonful (approximately 2 grams) of Nescafe Cafe De Olla Instant Coffee granules to your favorite cup. Adjust quantity to taste for desired strength.
- Heat Water:** Heat approximately 150 ml (about 5 fluid ounces) of water until hot, but not boiling. The ideal temperature is around 185-205°F (85-96°C).
- Combine:** Pour the hot water over the coffee granules in your cup.
- Stir:** Stir well until the coffee granules are completely dissolved.
- Enjoy:** Your Nescafe Cafe De Olla is now ready to be enjoyed. No additional sugar or cinnamon is typically needed due to its pre-blended flavor.

MAINTENANCE AND CARE

Maintaining the quality of your Nescafe Cafe De Olla is straightforward:

- Always ensure the lid is securely fastened after each use to prevent moisture and air exposure, which can degrade the coffee's flavor and aroma.
- Store in a pantry or cupboard, away from direct heat sources or extreme temperature fluctuations.

Jar Reuse and Recycling:

The glass jar is designed for reuse and recycling. Follow these steps for proper disposal or repurposing:

1. **Peel:** Carefully peel off the product label from the glass jar.
2. **Rinse:** Rinse the empty jar thoroughly with water to remove any coffee residue.

3. **Clean:** Ensure the jar is clean and dry before repurposing or placing it in your recycling bin according to local guidelines.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Coffee tastes weak or watery.	Too little coffee, too much water, or water not hot enough.	Increase coffee quantity, reduce water, or ensure water is adequately hot (but not boiling).
Coffee tastes too strong or bitter.	Too much coffee, water too hot, or over-stirring.	Reduce coffee quantity, use slightly cooler water, or stir just enough to dissolve.
Granules not dissolving completely.	Water not hot enough, or insufficient stirring.	Ensure water is hot enough and stir thoroughly until all granules are dissolved.

Problem	Possible Cause	Solution
Product appears clumpy or hardened.	Moisture exposure due to improper storage.	Ensure lid is tightly sealed after each use. Store in a dry environment. If severely hardened, the quality may be compromised.
