Hoont H935VNDR

Hoont Motion-Activated Animal Repellent Sprinkler User Manual

Model: H935VNDR

1. Introduction

Thank you for choosing the Hoont Motion-Activated Animal Repellent Sprinkler. This device is designed to humanely deter unwanted animals such as cats, squirrels, deer, skunks, and dogs from your garden, yard, and other property areas. Utilizing a powerful motion sensor and a harmless jet of water, it provides effective protection without causing harm to animals or the environment. Please read this manual thoroughly before use to ensure proper setup and operation.

2. Safety Information

- **Water Pressure:** Ensure your water hose connection and water pressure are suitable for the device. Excessive pressure may cause leaks or damage.
- **Battery Safety:** Use only the recommended battery type. Do not mix old and new batteries. Dispose of used batteries responsibly.
- **Placement:** Position the device in a stable location to prevent it from falling over. Avoid placing it where it could spray people or pets unintentionally.
- **Children and Pets:** Keep the device out of reach of small children and supervise pets around the device to prevent accidental activation or tampering.
- **Winterization:** In freezing temperatures, disconnect the device from the water source and drain all water to prevent damage from ice expansion. Store indoors.
- **Maintenance:** Do not attempt to disassemble or repair the device beyond the instructions provided in this manual. Contact customer support for assistance.

3. Package Contents

Verify that all components are present in your package:

- 1 x Hoont Motion-Activated Animal Repellent Sprinkler Unit (with motion sensor and sprinkler head)
- 1 x Ground Stake
- 1 x Extension Pipe (optional for increased height)
- 1 x User Manual

4. Setup Instructions

Follow these steps for quick and easy setup:

1. **Insert Batteries:** Locate the battery compartment on the front of the main unit. Slide open the cover and insert the required batteries (not included), ensuring correct polarity. Close the cover securely.
2. **Attach Sprinkler Head:** Screw the sprinkler head onto the top of the main unit until it is firmly attached.
3. **Attach Extension Pipe (Optional):** If you need additional height for taller plants or larger animals, screw the extension pipe onto the bottom of the main unit.
4. **Attach Ground Stake:** Screw the ground stake onto the bottom of the extension pipe (if used) or directly onto the main unit.
5. **Connect to Water Hose:** Attach your garden hose to the connector at the base of the ground stake. Ensure a tight connection to prevent leaks.
6. **Position the Device:** Carefully push the ground stake into the soil in the desired area of your garden or yard. Ensure the

unit is stable and upright.

7. **Adjust Settings:** Turn on the water supply. Adjust the sensitivity dial on the side of the unit to control the motion detection range (0-30 feet). Adjust the sprinkler head to set the desired spray arc (up to 1000 sq ft coverage).

5. Operating Instructions

Once set up, the Hoont Motion-Activated Animal Repellent Sprinkler operates automatically:

- **Motion Detection:** The integrated PIR sensor detects movement within its adjustable range of 0 to 30 feet.
- **Water Jet Activation:** Upon detecting motion, the sprinkler activates a 5-second intermittent water jet. This sudden burst of water and motion startles animals, encouraging them to leave the protected area.

- **Water Conservation:** The intermittent spray cycle ensures effective deterrence while minimizing water consumption.
- **Continuous Protection:** The device provides 24/7 protection, day and night, as long as it has power and water supply.

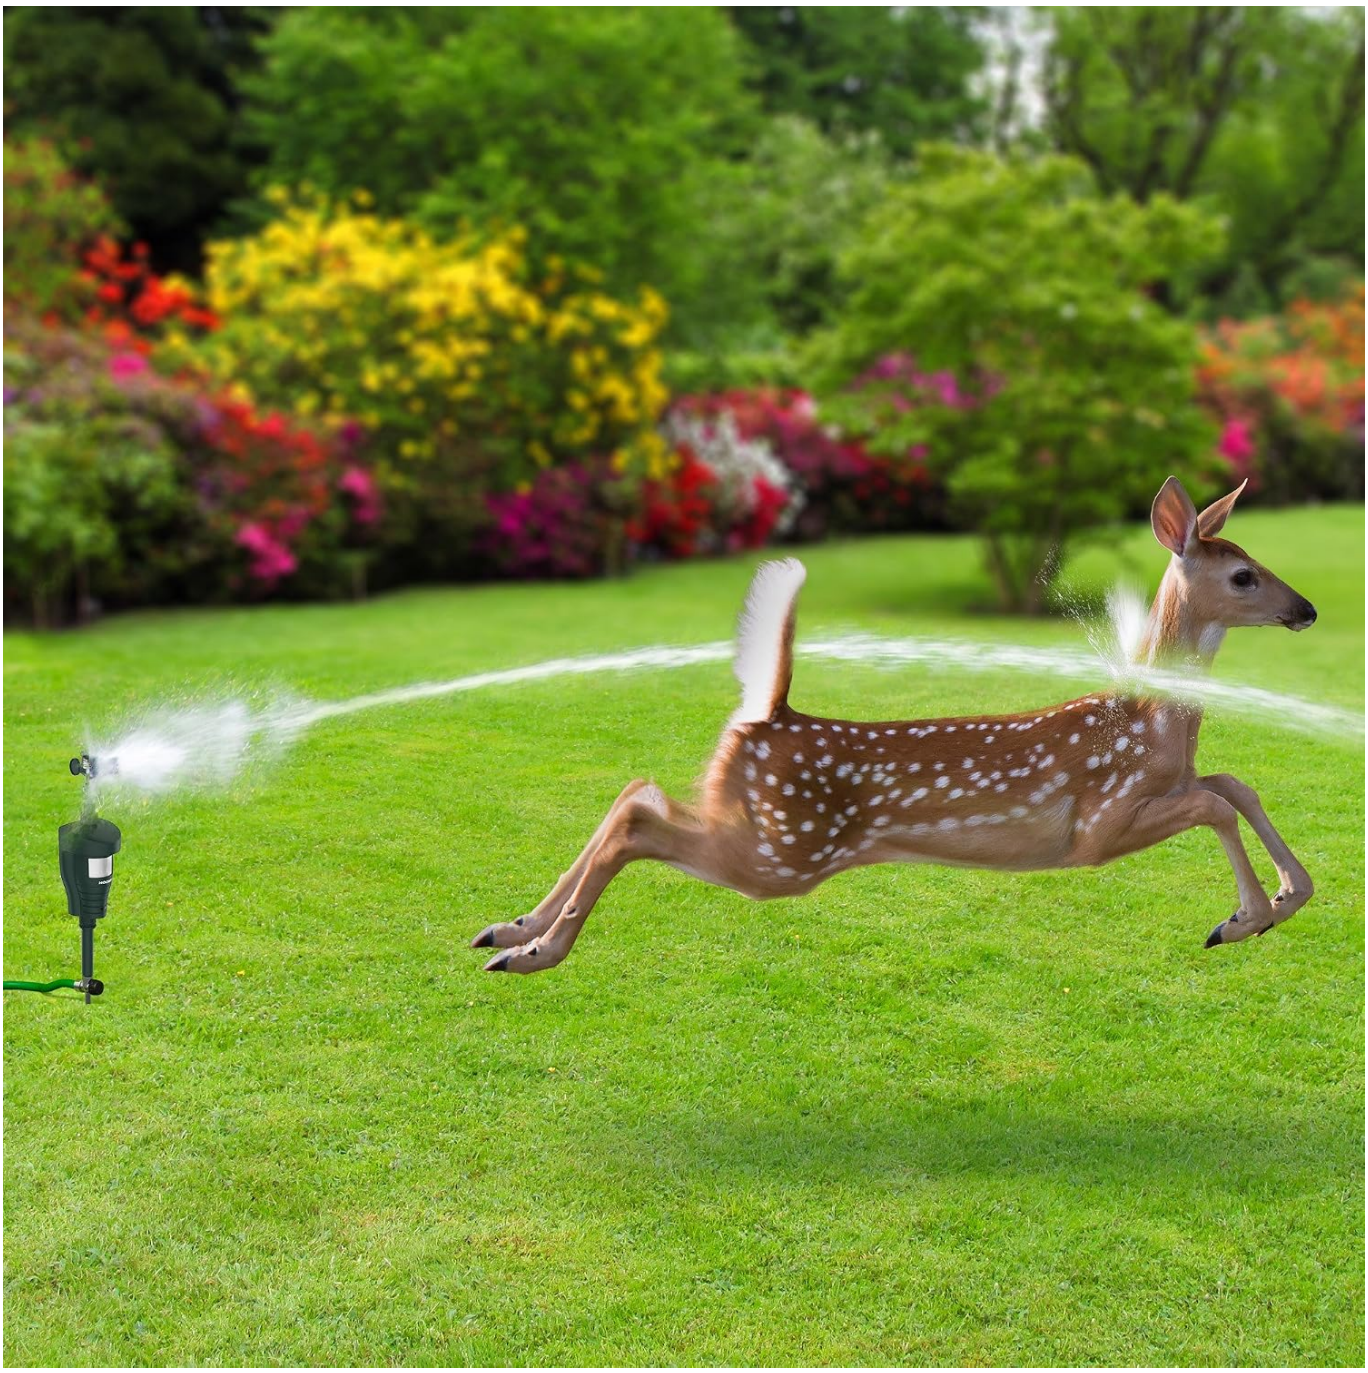

Image 5.1: A deer reacting to the water jet from the Hoont Motion-Activated Animal Repellent Sprinkler, illustrating its deterrent effect.

6. Maintenance

To ensure the longevity and optimal performance of your Hoont Animal Repellent Sprinkler, follow these maintenance guidelines:

- **Battery Replacement:** Replace batteries when the device's performance diminishes or if it stops activating. Always use fresh, high-quality batteries.
- **Cleaning:** Periodically clean the motion sensor lens with a soft, damp cloth to ensure clear detection. Remove any debris or mineral buildup from the sprinkler head to maintain optimal spray.
- **Leak Checks:** Regularly inspect all connections for leaks. Tighten connections as needed. If persistent leaks occur, check rubber washers for wear and replace if necessary.
- **Winter Storage:** Before the first frost, disconnect the device from the water hose, drain all water from the unit, and remove

the batteries. Store the unit indoors in a dry, protected area to prevent freeze damage.

7. Troubleshooting

If you encounter issues with your Hoont Motion-Activated Animal Repellent Sprinkler, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not spraying water.	No water supply, low water pressure, dead batteries, clogged nozzle, sensor malfunction.	Check water hose connection and tap. Ensure sufficient water pressure. Replace batteries. Clean sprinkler nozzle. Verify sensor is clear of obstructions.
Device is leaking.	Loose connections, damaged washers, cracked housing.	Tighten all hose and unit connections. Inspect rubber washers and replace if worn. If housing is cracked, contact customer support.
Device not detecting motion or spraying too frequently.	Incorrect sensitivity setting, obstructed sensor, environmental factors (wind, sunlight).	Adjust the sensitivity dial. Ensure the sensor lens is clean and unobstructed. Reposition the unit to avoid false triggers from wind-blown objects or direct sunlight.
Limited spray range.	Low water pressure, clogged nozzle.	Increase water pressure from the tap. Clean the sprinkler nozzle thoroughly.

8. Specifications

Feature	Detail
Brand	Hoont
Model Number	H935VNDR
Color	Green
Material	Metal
Product Dimensions (L x W x H)	18" x 12" x 8"
Item Weight	0.72 Kilograms
Power Source	Battery Powered
Motion Detection Range	0 - 30 feet (adjustable)
Coverage Area	Up to 1000 square feet
Spray Cycle	5-second intermittent spray
Target Species	Deer, Cats, Squirrels, Skunks, Dogs, etc.

9. Warranty and Support

The Hoont Motion-Activated Animal Repellent Sprinkler comes with a **1-year manufacturer's warranty** from the date of purchase. This warranty covers defects in materials and workmanship under normal use.
