Lucid Audio LA-KIDS-PM-BL

Lucid Audio HearMuffs Kids Hearing Protection User Manual

Model: LA-KIDS-PM-BL

INTRODUCTION

Welcome to your Lucid Audio HearMuffs. These over-the-ear sound protection ear muffs are designed to provide advanced hearing protection for children aged 5 and above, safeguarding them from harmful loud noises in various environments.

Key Features

- Advanced hearing protection for loud environments.
- Adjustable headband with smooth foam for maximum comfort.
- Constructed with kid-safe, non-toxic materials.
- Engineered and designed in the USA.

SETUP AND ADJUSTMENT

The HearMuffs are designed for immediate use with minimal setup.

Adjusting the Headband

1. Gently pull the ear cups downwards from the headband to extend the adjustable arms.
2. Place the HearMuffs over the child's ears, ensuring the ear cups fully cover the ears.
3. Slide the ear cups back up into the headband until a snug, comfortable fit is achieved. The headband should rest on top of the head without excessive pressure.

OPERATING INSTRUCTIONS

Lucid Audio HearMuffs provide passive noise reduction, meaning they do not require batteries or electronic components to function. They work by physically blocking and dampening sound waves.

When to Use

These HearMuffs are ideal for environments with loud noises where hearing protection is necessary. This includes, but is not limited to:

- Concerts and live events
- Firework shows
- Sporting events (e.g., stadium events, auto races)
- Sensory defense for children sensitive to noise
- Around loud machinery (e.g., vacuum cleaners, lawnmowers)

SAFE LEVELS

- Home Appliance – Washing Machine
- Home Appliance – Vacuum Cleaner
- Average Conversation/Discussion

DANGER LEVELS

- Auto Races
- Live Sports Events
- Live Concerts
- Firework Celebrations
- Yard Work Equipment

Above 85dB Level Hearing Protection Recommended

Image: An infographic illustrating safe noise levels (e.g., home appliances, conversation) versus danger levels (e.g., auto races, concerts, fireworks, yard work equipment), recommending hearing protection above 85dB.

Proper Fit for Optimal Protection

For maximum effectiveness, ensure the ear cups form a complete seal around the ears. Any gaps can reduce the noise reduction capability. The soft foam cushioning is designed for extended wear comfort.

CARE AND MAINTENANCE

Cleaning

To clean your HearMuffs, wipe the exterior surfaces with a soft, damp cloth. Do not submerge the HearMuffs in water or use harsh chemical cleaners, as this may damage the materials.

Storage

Store the HearMuffs in a clean, dry place away from extreme temperatures and direct sunlight. Avoid placing heavy objects on top of them to prevent deformation.

TROUBLESHOOTING

Reduced Noise Protection

If you notice reduced noise protection, check the following:

- Ensure the ear cups are fully covering the ears and forming a tight seal.
- Verify that the headband is adjusted correctly for a snug fit.
- Inspect the ear cushions for any tears or damage that might compromise the seal.

Discomfort During Wear

If the child experiences discomfort:

- Re-adjust the headband to relieve pressure.
- Ensure no hair or clothing is caught under the ear cushions.
- Allow short breaks from wearing the HearMuffs if used for extended periods.

PRODUCT SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Model Number	LA-KIDS-PM-BL
Product Dimensions	8.5 x 8.5 x 2.75 inches
Item Weight	8.8 ounces
