**HQRP 884667801081830**

## HQRP Carbon Filter Instruction Manual

For Bonaire Air Purifiers (Models BAP1400, BAP1415, BAP1452, BAP1500, BAP1502, BAP1520, BAP1525, BAP1552, BAP1700, BAP2000, BAP8500)

### 1. INTRODUCTION

---

This instruction manual provides essential information for the proper use, installation, and maintenance of your HQRP Carbon Filters. These filters are designed to enhance air quality by absorbing and eliminating common household odors. Please read this manual thoroughly before installing and using the filters.

### 2. PRODUCT FEATURES

---

- **Odor Absorption:** HQRP Carbon Filters are designed to naturally deodorize the air by absorbing and eliminating odors from pets, garbage, bathrooms, smoke, litter boxes, and cooking.
- **Enhanced Filtration:** These activated carbon (charcoal) filters work in conjunction with HEPA-type filters (such as Aer1 / BAPF30 / HAPF30) to trap tobacco and cigarette smoke, pet odors, cooking odors, and household chemicals.
- **Compatibility:** Specifically designed for use in various Bonaire branded table top and tower air purifiers.

The image below shows a typical pack of HQRP Carbon Filters.

### 3. COMPATIBILITY

---

These HQR Carbon Filters are compatible with the following Bionaire Air Purifier models:

- BAP1400
- BAP1415
- BAP1452
- BAP1500
- BAP1502
- BAP1520
- BAP1525
- BAP1552
- BAP1700
- BAP2000

- BAP8500

They are also compatible with Bionaire BAPF31 carbon filter replacements.

## 4. INSTALLATION INSTRUCTIONS

Follow these steps to properly install your HQRP Carbon Filters into your compatible Bionaire air purifier. Always refer to your air purifier's specific manual for detailed instructions on opening the filter compartment.

1. **Prepare the Air Purifier:** Unplug your air purifier from the power outlet before beginning any maintenance or filter replacement.
2. **Access Filter Compartment:** Open the filter compartment of your Bionaire air purifier. This usually involves removing a front or back panel.
3. **Remove Old Filters:** Carefully remove the old carbon filters and any associated HEPA-type filters. Dispose of old filters according to local regulations.
4. **Install Carbon Filter:** Place the new HQRP Carbon Filter into the designated slot. Ensure it is correctly oriented. The carbon filter is typically installed before the HEPA-type filter.

Image: Diagram illustrating the correct placement of the carbon filter within an air purifier, distinguishing it from the foam pre-filter.

5. **Install HEPA-type Filter (if applicable):** If your air purifier uses a separate HEPA-type filter, install it after the carbon filter, ensuring proper fit.
6. **Close Compartment:** Securely close the filter compartment panel.
7. **Restore Power:** Plug your air purifier back into the power outlet.

Image: A hand demonstrating the installation of a pre-filter into an air purifier unit.

**Important Note:** These carbon filters are for use with HEPA-type filters and cannot be used independently. They do NOT replace washable foam pre-filters.

## 5. MAINTENANCE

---

For optimal performance and air quality, it is recommended to replace your HQRP Carbon Filters regularly. The exact replacement frequency may vary depending on usage, air quality, and the specific air purifier model. Generally, carbon filters should be replaced every 3 to 6 months, or as indicated by your air purifier's filter change indicator.

Regularly check the filters for visible signs of dirt or discoloration. Heavily soiled filters should be replaced sooner to maintain effective odor absorption and air purification.

## 6. SPECIFICATIONS

---

- **Product Type:** Carbon Odor Filters
- **Quantity:** 8-pack
- **Dimensions:** Approximately 4 1/4 x 9 1/2 inches (width x length)

- **Manufacturer:** HQRP
- **Model Number:** 884667801081830
