Puig 9270P

Puig Brake Fluid Reservoir Cover User Manual

Model: 9270P

PRODUCT OVERVIEW

The Puig Brake Fluid Reservoir Cover is a high-quality accessory designed to replace the standard brake fluid reservoir cap on compatible Suzuki motorcycle models. Machined from a solid block of aluminum and anodized in silver, this cover enhances the aesthetic appeal of your motorcycle while serving its functional purpose.

Key Features

- Reference: 9270P
- Color: Silver
- Enhances motorcycle aesthetics with an exclusive touch
- Machined from a block of aluminum
- Anodized finish for durability and appearance

Product Image

Image: Puig Brake Fluid Reservoir Cover, silver color, with 'PUIG HI-TECH PARTS' engraved on the central band. The cover features a textured surface on the top and bottom sections, and two visible screw points.

SETUP AND INSTALLATION

Installation of the Puig Brake Fluid Reservoir Cover is generally straightforward, replacing the existing cap. However, it is recommended that installation be performed by a qualified motorcycle mechanic to ensure proper fitment and to avoid any issues with the brake system.

1. Ensure the motorcycle is stable and on a level surface.
2. Carefully remove the screws securing the original brake fluid reservoir cap.
3. Gently lift off the original cap, being careful not to spill any brake fluid.
4. Place the Puig Brake Fluid Reservoir Cover (Model 9270P) onto the reservoir, aligning the screw holes.
5. Secure the new cover with the appropriate screws. Do not overtighten.
6. Verify that the cover is securely fastened and that there are no leaks.

Note: Always refer to your motorcycle's service manual for specific instructions regarding brake system components.

OPERATION

The Puig Brake Fluid Reservoir Cover functions as a protective and aesthetic cap for your motorcycle's brake fluid reservoir. It does not alter the operational characteristics of the brake system itself. Its primary role is to secure the brake fluid within the reservoir and to provide a visually appealing upgrade to your motorcycle's handlebars.

MAINTENANCE

To maintain the appearance and integrity of your Puig Brake Fluid Reservoir Cover, follow these simple maintenance guidelines:

- **Cleaning:** Clean the cover regularly with a soft cloth and mild soap and water. Avoid abrasive cleaners or solvents that could damage the anodized finish.
- **Inspection:** Periodically inspect the cover for any signs of wear, damage, or looseness. Ensure the screws remain tight.
- **Fluid Contact:** While the cover is designed to be resistant, prolonged contact with brake fluid can potentially affect the finish. Wipe off any spilled brake fluid immediately.

TROUBLESHOOTING

If you encounter any issues with your Puig Brake Fluid Reservoir Cover, consider the following:

- **Loose Fit:** If the cover feels loose, gently tighten the securing screws. Do not overtighten, as this can strip the threads or damage the cover.
- **Fluid Leakage:** If you observe brake fluid leaking from around the cover, immediately check the gasket (if applicable) and ensure the cover is properly seated and tightened. If the leak persists, consult a professional mechanic. This could indicate a more serious issue with the brake reservoir or system.
- **Discoloration/Damage:** If the anodized finish shows signs of discoloration or damage, it may be due to exposure to harsh chemicals or prolonged sun exposure. While this is primarily cosmetic, severe damage might warrant replacement.

SPECIFICATIONS

Attribute	Value
Manufacturer	Motoplastic
Brand	Puig
Model Number	9270P
Item Weight	82 g
Product Dimensions (L x W x H)	14.24 x 6.24 x 4.74 cm
ASIN	B078WTJ4SG
First Available Date	June 11, 2022

COMPATIBILITY

This Puig Brake Fluid Reservoir Cover (Model 9270P) is compatible with various SUZUKI motorcycle models. Please verify your specific model against the list below:

- DL250 V-STROM (2017-2018)
- DL650 V-STROM (2004-2010, 2011, 2012-2018)
- DL650XT V-STROM (2015-2018)
- DL1000 V-STROM (2017-2018)
- DL1000XT V-STROM (2017-2018)
- GSR750 (2011-2016)
- GSX-R250 (2017-2018)
- GSX-R600 (1996-2017)
- GSX-R750 (1996-2003)
- GSX-R1000 (2001-2004)
- GSX-S750 (2017-2018)
- INAZUMA (2013-2017)
- SFV650 GLADIUS (2009-2015)
- SV650 (1999-2004, 2005, 2006-2008, 2016-2018)
- SV650S (1999-2004, 2005, 2006-2008)
- TL1000R (1998-2002)

Note: This list is based on the manufacturer's provided compatibility information. Always cross-reference with your motorcycle's specific model and year.

WARRANTY AND SUPPORT
