Setup

The crib and changer arrive with all necessary hardware and assembly instructions. Please refer to the included 'Assembly Instruction' booklet for detailed, step-by-step guidance.

Adjusting Mattress Height

The crib features three adjustable mattress height positions. To adjust the mattress support, locate the attachment points on the crib sides. As your child grows and becomes more mobile (e.g., sitting up, pulling to stand), lower the mattress support to prevent them from climbing out. Always ensure the mattress support is securely fastened at all four corners.
