1. OVERVIEW

The R for Rabbit Lollipop Lite Baby Stroller is designed to provide a comfortable and secure experience for your child from 0 to 3 years of age. This lightweight stroller features a 5-point safety harness, a reversible handlebar, and a cushioned seat with 3 recline levels, ensuring both safety and convenience for parents and children.

2. SAFETY INFORMATION

Your child's safety is paramount. Please read and follow all safety instructions carefully before using the stroller.

- Always use the 5-point safety harness to secure your child in the stroller. Ensure all straps are properly fastened and adjusted snugly.
- Never leave your child unattended in the stroller.
- Engage the rear brakes whenever the stroller is stationary.
- Do not overload the storage basket or hang bags on the handlebar, as this can cause the stroller to tip over.
- Ensure the stroller is fully open and locked before placing your child in it.
- Keep children clear of moving parts when folding or unfolding the stroller.
- The maximum weight recommendation for this stroller is 20 kilograms. Do not exceed this limit.

3. PRODUCT FEATURES

The Lollipop Lite Stroller is equipped with several features designed for comfort, safety, and convenience:

- **5-Point Safety Harness:** Provides maximum security for your child.

- **Reversible Handlebar:** Allows you to easily switch the direction your child faces.
- **Cushioned Seat with 3 Recline Levels:** Ensures comfort for sleeping or sitting upright.
- **Adjustable Leg Rest:** Provides support for your child's legs as they grow.
- **Adjustable Canopy:** Protects your child from sun and wind. Features a peek-a-boo window.
- **Storage Basket:** Conveniently located under the seat for carrying essentials.
- **Rear Brakes:** For secure stopping and parking.
- **Lightweight and Foldable Design:** Easy to transport and store.

4. SETUP AND ASSEMBLY

The R for Rabbit Lollipop Lite Stroller comes largely pre-assembled. Follow these general steps for initial setup:

1. **Unpack:** Carefully remove all components from the packaging.
2. **Unfold:** Release the folding latch (if engaged) and gently pull the handlebar upwards until the frame locks into place. Ensure both sides are securely locked.
3. **Attach Wheels (if separate):** If the wheels are not pre-attached, push them onto the axles until they click securely. Ensure they rotate freely.
4. **Check Safety Harness:** Verify that the 5-point safety harness is correctly installed and adjustable.
5. **Adjust Canopy:** Position the canopy as desired.

Always double-check all connections and locking mechanisms before first use.

5. OPERATING INSTRUCTIONS

5.1. Securing Your Child

1. Place your child in the seat.
2. Fasten the 5-point safety harness. Ensure the shoulder straps, waist straps, and crotch strap are all connected and adjusted snugly without being too tight.

5.2. Using the Reversible Handlebar

To reverse the handlebar, locate the release buttons or levers on both sides of the handlebar. Press these buttons and swing the handlebar over to the opposite side until it locks securely into place. This allows your child to face you or face forward.

Image 5.1: The stroller with its handlebar in the reversed position, allowing the child to face the parent.

5.3. Adjusting the Seat Recline

The seat offers 3 recline positions. Locate the recline mechanism (usually a lever or strap system) at the back of the seat. Adjust to the desired angle for your child's comfort, from upright to a more reclined position for naps.

5.4. Engaging the Brakes

To engage the rear brakes, press down firmly on the brake levers located near the rear wheels. Ensure both brakes are fully engaged before leaving the stroller stationary. To release, lift the levers upwards.

5.5. Folding the Stroller

To fold the stroller for storage or transport:

1. Ensure your child is removed from the stroller.
2. Engage the brakes.
3. Collapse the canopy.
4. Locate the folding mechanism (often a lever or button on the handlebar or frame). Follow the specific instructions

for your model to initiate the fold.

5. Push the handlebar down and forward until the stroller collapses into a compact form.
6. Secure the folding latch to keep the stroller folded.

Image 5.2: The stroller folded for compact storage and easy transport.

6. MAINTENANCE

Regular maintenance will prolong the life of your stroller and ensure continued safety.

- **Cleaning Fabric:** Use a mild soap and warm water solution to spot clean fabric components. Do not use harsh detergents or bleach. Allow to air dry completely.
- **Cleaning Frame:** Wipe the metal frame with a damp cloth. Dry thoroughly to prevent rust.

- **Wheel Maintenance:** Periodically check wheels for debris and remove any tangled hair or dirt. Lubricate moving parts of the wheels and axles with a silicone-based lubricant if they become stiff.
- **Storage:** Store the stroller in a dry, cool place away from direct sunlight and extreme temperatures.
- **Inspections:** Regularly inspect all parts for wear and tear, loose fasteners, or damaged components. Discontinue use if any damage is found and contact customer support.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Stroller does not fold or unfold smoothly.	Folding mechanism is stiff or obstructed.	Ensure all levers are fully engaged/disengaged. Check for any obstructions in the folding joints. Lubricate moving parts if necessary.
Wheels are squeaky or difficult to maneuver.	Debris in wheel axles or lack of lubrication.	Clean wheels and axles thoroughly. Apply a silicone-based lubricant to moving parts.
Handlebar does not reverse.	Locking mechanisms not fully released.	Ensure both release buttons/levers on the handlebar are fully pressed before attempting to reverse.
Stroller feels unstable.	Stroller not fully locked in open position or overloaded.	Verify that the frame is fully extended and locked. Do not exceed the maximum weight capacity (20 kg) or overload the storage basket.

8. SPECIFICATIONS
