LKPower AC Adapter User Manual

For RadioShack CAT.NO.: 15-1838 Power Supply

Model: 180117021

Introduction

This manual provides essential instructions for the safe and efficient use of your LKPower AC Adapter, designed as a replacement power supply for RadioShack CAT.NO.: 15-1838. This adapter converts AC power from standard electrical outlets into the DC power required by your device, ensuring reliable operation and charging. It features over-voltage and over-heat protection for enhanced safety.

Safety Information

- Read all instructions thoroughly before using the adapter.
- Do not expose the adapter to liquids, moisture, or extreme temperatures.
- Use only with devices compatible with the adapter's output specifications.
- Unplug the adapter from the power outlet when not in use or during electrical storms.
- Keep the adapter out of reach of children.
- Ensure adequate ventilation around the adapter during operation to prevent overheating.
- Do not attempt to open, modify, or repair the adapter. Refer servicing to qualified personnel.

Setup

Follow these steps to properly set up your LKPower AC Adapter:

1. **Identify Device Port:** Locate the power input port on your RadioShack CAT.NO.: 15-1838 device.
2. **Connect DC Plug:** Insert the DC output plug of the LKPower adapter firmly into your device's power input port.
3. **Connect to Power Outlet:** Plug the AC adapter into a standard 100-240V AC electrical wall outlet.
4. **Verify Operation:** Confirm that your device powers on or begins charging, indicated by its power indicator light or display.

Operating Instructions

Once properly connected, the LKPower AC Adapter will automatically supply the necessary power to your RadioShack CAT.NO.: 15-1838 device or charge its battery. The adapter is designed for continuous operation within its specified input voltage range (100-240V AC, 50/60Hz), making it suitable for worldwide use.

Maintenance

- **Cleaning:** Always disconnect the adapter from the power outlet and your device before cleaning. Use a dry, soft, lint-free cloth to wipe the exterior surfaces. Do not use liquid cleaners, abrasive pads, or chemical solvents, as these can damage the adapter.
- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and excessive heat. Avoid wrapping the cable too tightly around the adapter to prevent stress and potential damage to the cable or connectors.

Troubleshooting

- **Device Not Powering On or Charging:**
    - Ensure the AC adapter is securely plugged into both the wall outlet and your device's power input port.
    - Verify that the wall outlet is functional by testing it with another electrical device.
    - Check the adapter and its cable for any visible signs of damage (e.g., cuts, frayed wires). If damaged, discontinue use immediately.
    - Confirm that your device is indeed compatible with the LKPower AC Adapter for RadioShack CAT.NO.: 15-1838.
- **Adapter Feels Excessively Hot:**
    - It is normal for the adapter to become warm during operation. However, if it becomes excessively hot to the touch, disconnect it from the power source and your device immediately. Ensure there is adequate ventilation around the adapter. If the issue persists, contact customer support.
