Cooler Depot G1.2BM2F Commercial 2-Door Glass Merchandiser Refrigerator User Manual

Model: G1.2BM2F

1. PRODUCT OVERVIEW

The Cooler Depot G1.2BM2F is a commercial-grade 2-door glass merchandiser refrigerator designed for displaying and cooling beverages and food items. It features a durable construction with coated steel exterior and aluminum interior, self-closing double-pane glass doors, and a bottom-mounted compressor for efficient operation.

Figure 1: Front view of the Cooler Depot G1.2BM2F Commercial 2-Door Glass Merchandiser Refrigerator.

- **Brand:** Cooler Depot
- **Model:** G1.2BM2F
- **Capacity:** 45 Cubic Feet
- **Dimensions (L x D x H):** 53" x 32" x 81" (including casters)
- **Item Weight:** 440 Pounds
- **Voltage:** 115 Volts
- **Wattage:** 900 Watts
- **Refrigerant:** R134a
- **Certification:** ETL, NSF certified

2. FEATURES

- **Durable Construction:** Features a coated steel metal exterior and door frame, with an interior aluminum liner and stainless steel floor for enhanced sturdiness and longevity. Designed to withstand heavy-duty restaurant tasks.
- **Self-Closing Glass Doors:** Equipped with two double-pane glass doors that are self-closing for convenience and energy efficiency.
- **Adjustable Shelving:** Includes 8 PVC coated shelves that are easy to slide in and out, clean, and maintain, increasing practical usage.
- **Efficient Cooling System:** Utilizes a bottom-mounted high-quality compressor that circulates environmentally friendly R134a refrigerant.
- **Digital Temperature Control:** Temperature is controlled by a digital display and knob, allowing easy adjustment from 0 to 5°C (32 to 41°F).
- **LED Lighting:** Integrated LED lights help keep track of inventory easily and enhance product visibility.
- **Mobility:** Fitted with 4 lockable castor wheels for easy movement and positioning.
- **Security:** Includes a door lock feature for securing contents.

3. SETUP AND INSTALLATION

This unit is designed for straightforward setup. Ensure the refrigerator is placed on a level surface. The included lockable castor wheels allow for easy positioning. Once positioned, lock the wheels to prevent movement. The unit operates on a standard 115 Volt electrical connection. Simply plug it into a compatible wall outlet, and it will begin operation. No complex wiring or plumbing is required for basic functionality.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

Locate the control panel at the bottom front of the unit. The red switch controls the main power for the entire unit. Flip it to the 'ON' position to power on the refrigerator.

4.2 Temperature Adjustment

The digital thermostat display and knob allow for temperature adjustment. The temperature can be set between 0 to 5°C (32 to 41°F). Refer to the specific instructions on the control panel for detailed adjustment procedures.

4.3 Internal Lighting

The green switch on the control panel operates the internal LED lights. Turn this switch on or off as needed to illuminate the interior of the refrigerator.

Figure 3: Control panel with power switch, light switch, and digital temperature display.

4.4 Shelf Installation and Adjustment

The refrigerator comes with 8 PVC coated shelves. These shelves can be easily inserted into the side rails and adjusted to different heights to accommodate various product sizes. Ensure shelves are securely seated before placing items on them.

5. MAINTENANCE

5.1 Cleaning

The unit's interior aluminum liner and stainless steel floor are designed for easy cleaning. Regularly wipe down surfaces with a mild detergent and water. The PVC coated shelves are also easy to clean and maintain.

5.2 Condenser Coil Access

The bottom-mounted design allows for easily accessible condenser coil cleaning. Regular cleaning of the condenser coil is crucial for maintaining optimal performance and energy efficiency. Refer to the detailed manual for specific cleaning procedures.

6. TROUBLESHOOTING

For any operational issues or error codes displayed on the digital thermostat, consult the comprehensive manual provided with the unit. For complex issues or repairs, it is recommended to contact qualified service personnel or Cooler Depot customer support.

7. SPECIFICATIONS

Attribute	Value
Brand Name	Cooler Depot

Model Info	G1.2BM2F
Item Weight	440 Pounds
Product Dimensions (L x W x H)	53 x 32 x 80 inches
Capacity	45 Cubic Feet
Installation Type	Countertop
Form Factor	Side By Side
Special Features	Door Lock
Color	Glass Transparent
Voltage	115 Volts
Wattage	900 watts
Racks/Shelves	8
Defrost System	Automatic
Door Hinges	Front
Door Material Type	Steel
Shelf Type	Glass
Certification	NSF
Material Type	Glass
Number Of Doors	2

* CONFORMS TO UL STD. 471
 * CERTIFIED TO CSA STD. C22.2 NO.120
 * CONFORMS TO NSF/ANSI STD.7

G1.2BM2F

- **CABINET CONSTRUCTION**
 Exterior -Coated steel
 Interior - attractive, aluminum liner with stainless steel floor.
- **Rounded corner** design inside of the cabinet makes it easy to clean the inside storage room
- **Standard door features:**
 Double pane glass door,
 Self closing. Positive seal,
 Swing Door
- **Refrigeration system** holds 33°F to 41°F (0°C to 5°C), Ideal for beverages and soft drinks
- **Electronic control system:**
 Adjustable temperature set point and defrost frequency
 Error codes to diagnose service issues
- **Shelf:** Adjustable, heavy duty PVC coated shelves.
- **Fluorescent or LED lamps**
- **FOAMED-IN-PLACE POLYURETHANE HIGH DENSITY CELL INSULATION (CFC FREE)**

Bottom mounted units feature:

- "No stoop" lower shelf.
- Easily accessible condenser coil for cleaning, and easy service access
- Simple installation with no plumbing required
