Brighttown FY1201500

Brighttown Hollywood Style LED Vanity Mirror Lights Kit (10 Bulbs) User Manual

Model: FY1201500

1. INTRODUCTION

Thank you for choosing the Brighttown Hollywood Style LED Vanity Mirror Lights Kit. This product is designed to provide optimal lighting for makeup application, dressing, and general vanity use. Featuring 10 dimmable LED bulbs, adjustable brightness, and three light color options, this kit enhances your mirror with professional-grade illumination. Please read this manual thoroughly before installation and operation to ensure proper use and longevity of your product.

2. SAFETY INFORMATION

- This product is intended for indoor use only. Do not expose to water or high humidity.
- Ensure the power source matches the voltage requirements specified on the adapter.
- Do not attempt to modify or disassemble the product. This may void the warranty and pose safety risks.
- Keep out of reach of children.
- Unplug the power adapter from the outlet before cleaning or when not in use for extended periods.
- Avoid placing the power cord in areas where it can be tripped over or damaged.

3. PACKAGE CONTENTS

Verify that all components are present in your package:

- 10 x LED Vanity Light Bulbs (pre-assembled on a string)
- 1 x Power Adapter with USB Cable
- 1 x Smart Touch Dimmer Control Pad
- Adhesive Tapes (pre-attached to bulb bases or included separately)

4. SETUP AND INSTALLATION

Follow these steps for easy installation of your vanity lights:

1. **Prepare the Surface:** Clean the mirror or surface where the lights will be installed. Ensure it is dry and free of dust or grease for optimal adhesive performance.
2. **Mark Positions:** Temporarily arrange the bulbs around your mirror to determine the desired spacing and placement. Use a pencil or removable tape to mark the positions for each bulb.
3. **Attach Adhesive Tapes:** If not pre-attached, peel off the protective film from one side of the adhesive tape and apply it firmly to the base of each bulb.
4. **Install Bulbs:** Peel off the remaining protective film from the adhesive tape on the first bulb. Carefully align it with your marked position and press firmly for 10-15 seconds to secure. Repeat for all remaining bulbs.
5. **Adjust Wire Length:** The wires between bulbs can be adjusted by rotating the bulb bases. Rotate each bulb to wind or unwind the excess wire, achieving a neat and customized appearance.
6. **Connect Power:** Plug the USB cable from the light string into the power adapter, then plug the adapter into a standard electrical outlet.

Easy to Install

01 Clean and mark positions

02 Stick the tape on the marked positions

03 Attach the bulbs on the tape

04 Rotate the bulbs to adjust wire length

Image 4.1: Step-by-step visual guide for installing the vanity mirror lights, demonstrating surface preparation, bulb placement, and wire management.

USB and Plug Included

High quality tapes

Low temperature surface

Wires can be hidden

Image 4.2: Detailed view of the bulb's adhesive backing, the cool-to-touch surface, and the USB power connection for the light kit.

5. OPERATING INSTRUCTIONS

The Brightown LED Vanity Mirror Lights Kit features a smart touch dimmer control pad for easy operation.

5.1 Power On/Off

- Press the power button (O) on the control pad to turn the lights on or off.

5.2 Adjusting Brightness

- With the lights on, press the '+' button to increase brightness.
- Press the '-' button to decrease brightness.
- The lights offer 9 levels of brightness adjustment.

Image 5.1: Visual representation of the 9-level brightness adjustment feature, demonstrating varying light intensities.

5.3 Changing Light Color (Color Temperature)

- Press the color temperature button (**M**) on the control pad to cycle through the three available light colors: Warm Light, Natural Light, and Cool Light.
- Each color setting is optimized for different makeup needs or ambient preferences.

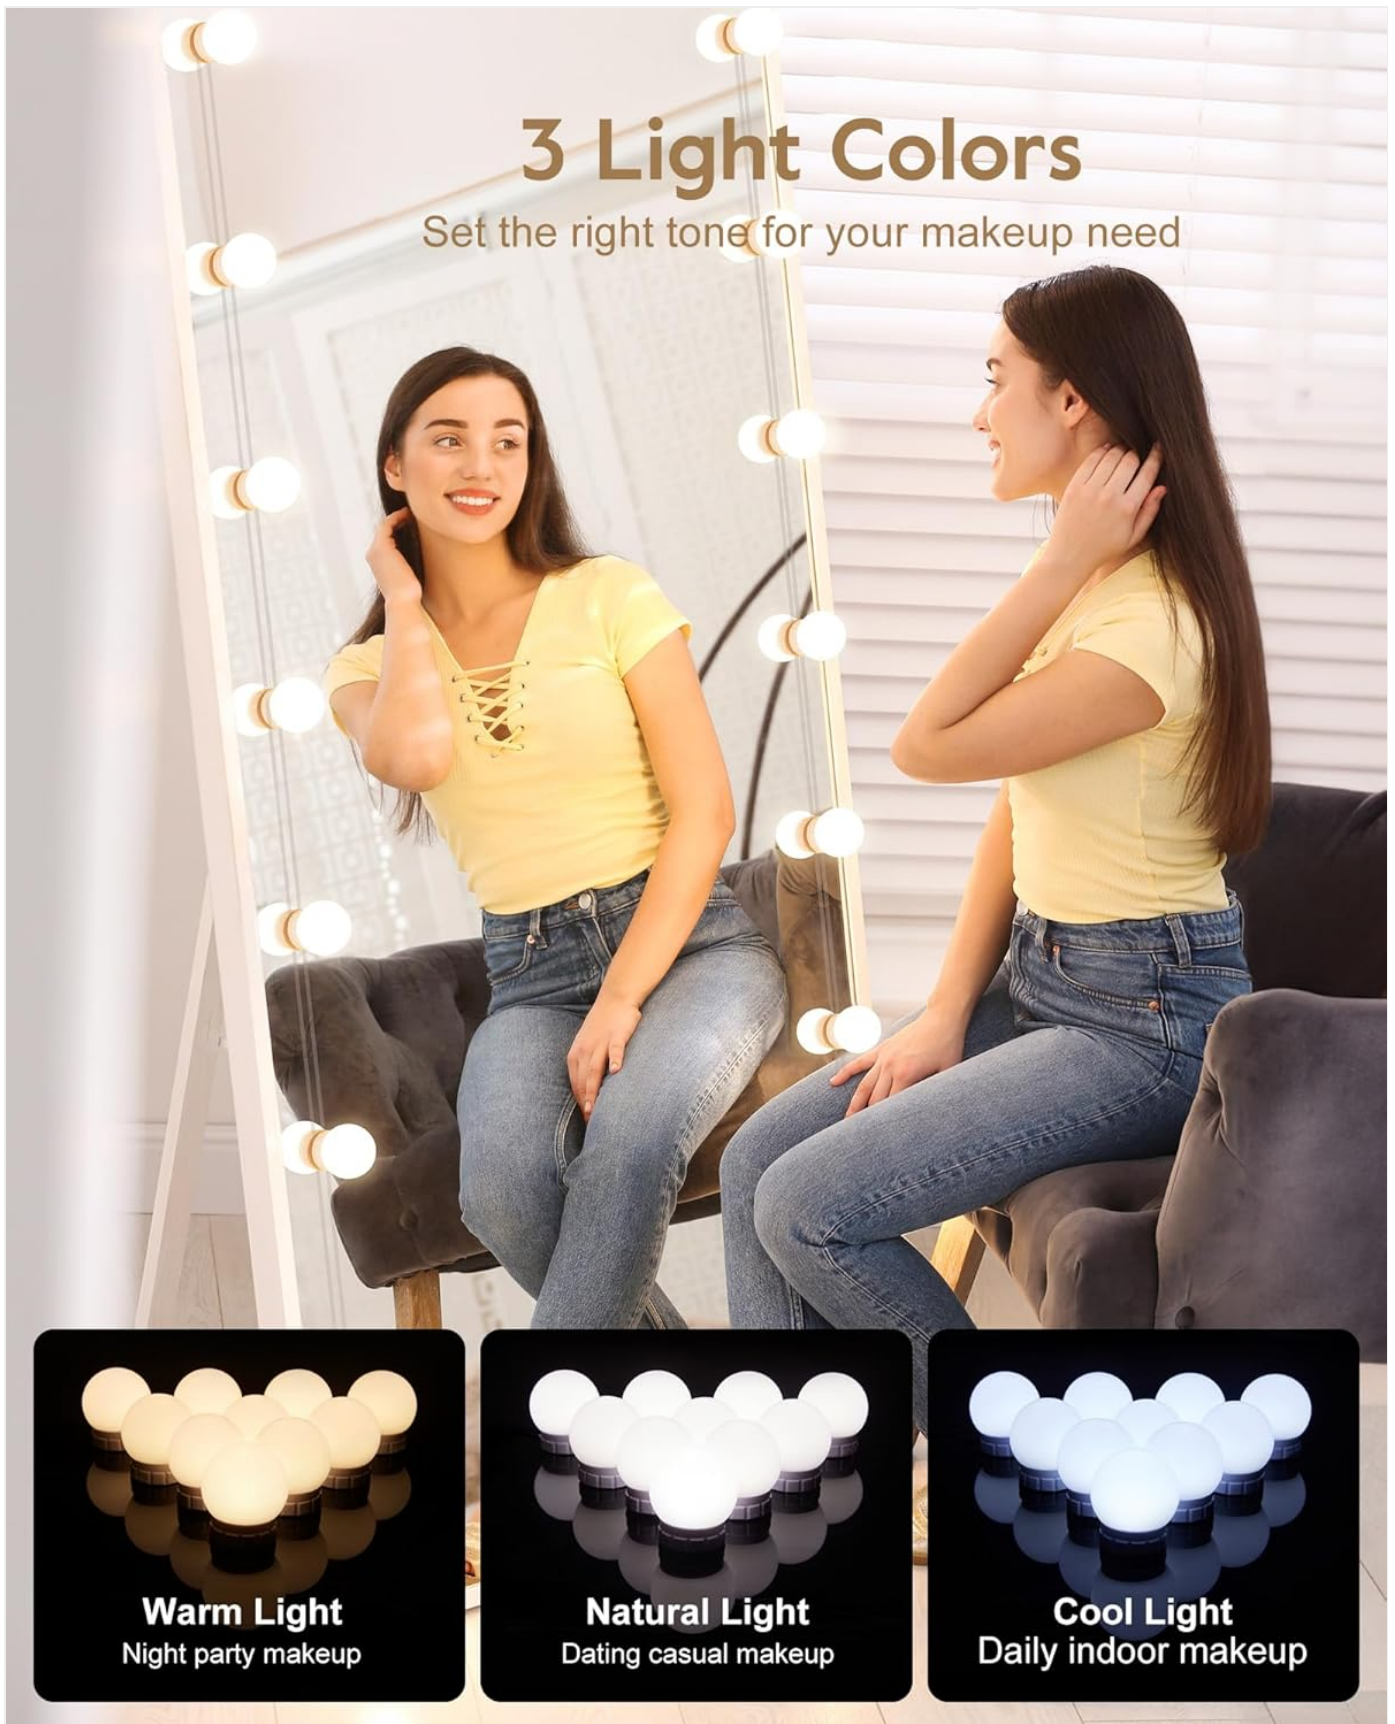

Image 5.2: Illustration of the three distinct light color options (Warm, Natural, Cool) and their suggested uses for various makeup applications.

6. MAINTENANCE

To ensure the longevity and optimal performance of your vanity lights, follow these maintenance guidelines:

- **Cleaning:** Disconnect the power adapter before cleaning. Use a soft, dry cloth to gently wipe the bulbs and wires. Do not use abrasive cleaners or solvents.
- **Adhesive Check:** Periodically check the adhesive backing of the bulbs to ensure they remain securely attached to the mirror surface. If an adhesive weakens, consider using a stronger, mirror-safe adhesive.
- **Storage:** If storing the lights, ensure they are clean and dry. Coil the wire neatly to prevent tangling and damage.

7. TROUBLESHOOTING

If you encounter issues with your Brightown LED Vanity Mirror Lights Kit, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights do not turn on.	No power supply; loose connection; faulty adapter.	Ensure the power adapter is securely plugged into both the wall outlet and the USB cable. Try a different outlet. Verify the power button on the control pad is pressed.
Lights are dim or flickering.	Brightness setting is too low; unstable power supply.	Increase brightness using the '+' button on the control pad. Ensure the power adapter is receiving stable power.
Bulbs are falling off the mirror.	Adhesive weakening; improper surface preparation.	Clean the mirror surface thoroughly before re-applying. Use new, stronger adhesive tapes if necessary. Ensure firm pressure is applied during installation.
Cannot change light color.	Control pad malfunction.	Ensure the control pad is not damaged. Try unplugging and re-plugging the power to reset the system.

8. SPECIFICATIONS

Specification

Image 8.1: Technical diagram illustrating key dimensions and components of the Brighttown LED Vanity Lights Kit.

Feature	Specification
Brand	Brightown
Model Name	vanity lights kit

Feature	Specification
Item Model Number	FY1201500
Number of Light Sources	10
Light Source Type	LED
Color Temperature	6500 Kelvin (Cool White), adjustable to Warm and Natural
Brightness	Up to 1500 lumen (adjustable)
Wattage	12 watts
Voltage	12 Volts
Control Method	Touch (Smart Touch Dimmer)
Installation Type	Self-adhesive, Wall Mount
Power Source	Corded Electric (USB powered)
Material	Acrylonitrile Butadiene Styrene, Plastic
Product Dimensions	9.5"L x 6.6"W x 2.9"H (packaging)
Total Length	15ft (approx. 4.57m)
Lighted Length	8.86ft (approx. 2.7m)
Bulb Diameter	1.77in (approx. 4.5cm)
Indoor/Outdoor Usage	Indoor
Special Features	Adjustable length, Dimmable, Energy Efficient
