OHLPRO TQ80-CTC

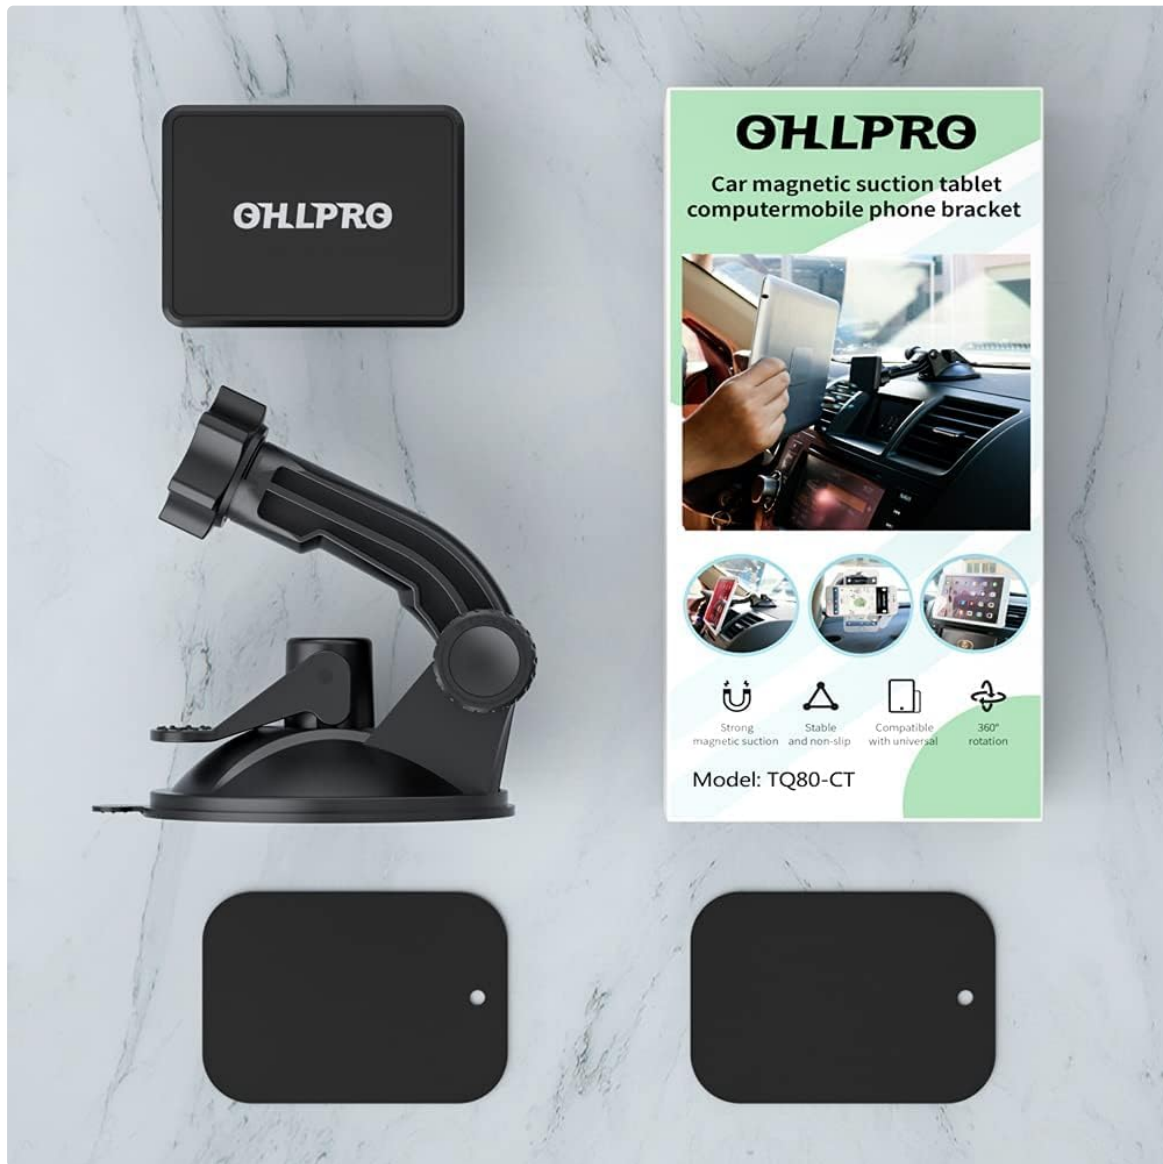

OHLPRO TQ80-CTC Dashboard Magnetic Tablet Holder User Manual

Model: TQ80-CTC

INTRODUCTION

The OHLPRO TQ80-CTC Magnetic Tablet Holder is designed for secure mounting of smartphones and tablets (4-10.5 inches) in your vehicle. It features a strong suction cup base for dashboard or windshield installation and a 360° rotatable head for optimal viewing angles. The holder utilizes powerful magnets to keep your device stable, even on rough roads, ensuring a reliable experience for navigation, calls, and media control.

WHAT'S IN THE BOX

This image displays the complete package contents: one OHLPRO magnetic tablet holder, two rectangular metal plates, and the user guide.

- 1 × OHLPRO Magnetic Tablet Holder
- 2 × Rectangular Metal Plates
- 1 × User Guide (This manual)

SETUP INSTRUCTIONS

1. **Choose a Mounting Surface:** Select a smooth, flat surface on your dashboard or windshield. Ensure the area is clean and free of dust or grease for optimal suction.
2. **Clean the Suction Cup:** If the suction cup is dirty, rinse it with water and let it air dry. Do not use harsh chemicals.
3. **Attach the Holder:** Place the suction cup firmly on the chosen surface. Press down the locking lever located on the base of the holder to create a strong vacuum seal.
4. **Apply Metal Plate to Device:** For your device to attach magnetically, you must apply one of the provided rectangular metal plates to the back of your phone or tablet, or inside its case. Ensure the plate is centered for best magnetic connection.
5. **Adjust the Holder Arm:** Loosen the adjustment knobs on the holder's arm to position it as desired. The arm

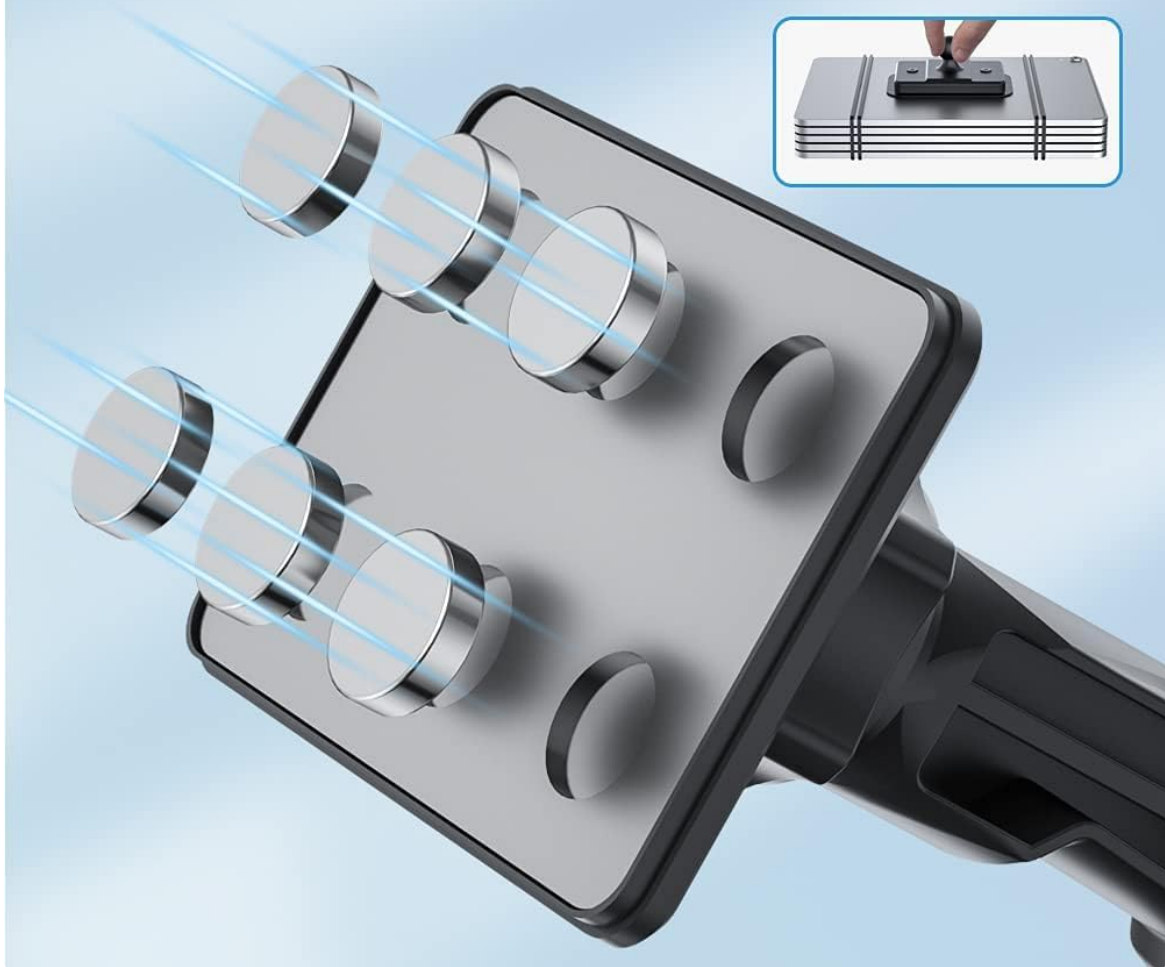

allows for 190° rotation. Tighten the knobs to secure the arm in place.

The diagram illustrates the flexible adjustability of the holder, featuring a 360° rotatable magnetic head and a 190° adjustable arm for various viewing angles.

N52 powerful magnet

Built-in six N52 powerful magnets, strong attraction.

This image shows the internal structure of the magnetic head, revealing six N52 powerful magnets designed to provide a secure hold for your device.

OPERATING INSTRUCTIONS

1. **Attaching Your Device:** Once the metal plate is on your device and the holder is securely mounted, simply bring your device close to the magnetic head. The powerful magnets will automatically secure it in place.
2. **Adjusting Viewing Angle:** The magnetic head allows for 360° rotation. Gently rotate your device to achieve your desired vertical or horizontal viewing orientation. The arm can also be adjusted for tilt.
3. **Removing Your Device:** To remove your device, simply pull it away from the magnetic head.

MULTIPLE INSTALLATION

The holder offers versatile installation options, shown here mounted on a car dashboard, windshield, and a kitchen countertop, adapting to various environments.

Product Demonstration Video

This video demonstrates the installation process and functionality of the OHLPRO magnetic tablet holder, showcasing its secure attachment to a car windshield and dashboard, and how a device can be easily mounted and removed.

MAINTENANCE

- Regularly inspect the suction cup for dirt or debris. Clean with water if necessary to maintain strong adhesion.
- Ensure all adjustment knobs are tightened to prevent the holder from shifting during use.
- Avoid exposing the holder to extreme temperatures for prolonged periods, as this may affect the suction cup's material.

TROUBLESHOOTING

- **Device not holding securely:** Ensure the metal plate is properly attached to your device or its case. Verify that the magnetic head and the metal plate are clean and free of obstructions.
- **Suction cup losing grip:** Clean the mounting surface and the suction cup thoroughly. Reapply the suction

cup, ensuring the locking lever is fully engaged. For textured dashboards, the suction cup may not adhere effectively.

- **Holder is wobbly:** Check that all adjustment knobs are securely tightened.
