

Artist hand #5009 Hydraulic Styling Salon Chair

Artist hand Black All Purpose Hydraulic Recline Barber Chair Instruction Manual

Model: #5009 Hydraulic Styling Salon Chair

1. INTRODUCTION AND OVERVIEW

This manual provides essential information for the safe and effective use of your Artist hand Black All Purpose Hydraulic Recline Barber Chair. Please read all instructions carefully before assembly and operation. Retain this manual for future reference.

The Artist hand barber chair is designed for professional use in barbershops, salons, tattoo studios, and private studios. It features a reinforced steel frame, a stable base, and high-density sponge cushioning for client comfort. Key functionalities include hydraulic height adjustment, 360-degree swivel, and a 135-degree recline capability, making it suitable for various services such as haircuts, shaves, and spa treatments.

2. SETUP AND ASSEMBLY

The barber chair requires assembly. All necessary tools and clear instructions are included. For a visual guide, refer to the assembly video provided below.

2.1 Assembly Steps Overview:

1. Unpack all components and verify against the parts list.
2. Attach the chair back to the seat base.
3. Secure the armrests to the chair assembly.
4. Mount the chair assembly onto the hydraulic pump.
5. Attach the footrest to the chair.
6. Ensure all connections are tight and secure before use.

3. OPERATING INSTRUCTIONS

The Artist hand barber chair offers several adjustable features for optimal client comfort and barber convenience.

3.1 Height Adjustment (Hydraulic Lift):

To adjust the chair height, use the hydraulic pump lever located on the side of the chair. Press the lever down repeatedly to raise the chair. To lower the chair, lift the lever fully upwards while a client is seated, allowing the chair to descend smoothly.

3.2 Recline Function:

The chair reclines up to 135 degrees. To recline, locate the recline lever (typically on the right side, under the armrest). Pull the lever to release the backrest and gently push the backrest to the desired angle. Release the lever to lock the

position. To return to an upright position, pull the lever and allow the backrest to move forward, then release the lever.

3.3 Swivel Function:

The chair features a 360-degree swivel. To rotate the chair, simply apply gentle pressure to turn it in the desired direction. The swivel mechanism allows for easy client positioning without moving the entire base.

3.4 Adjustable Headrest:

The headrest is adjustable and removable. To adjust the height, pull it upwards or push it downwards. To remove, pull it firmly upwards until it detaches. This feature provides flexible support for various services.

4. MAINTENANCE

Proper maintenance ensures the longevity and appearance of your barber chair.

4.1 Cleaning:

- **Upholstery:** The chair features waterproof PU leather. For daily cleaning, wipe with a damp cloth to remove hair clippings, dust, and minor spills. For deeper cleaning, use a mild soap solution and a soft cloth, then wipe dry. Avoid harsh chemicals or abrasive cleaners.
- **Metal Parts:** Clean chrome and other metal components with a soft, dry cloth. For stubborn marks, use a non-

abrasive metal cleaner as directed by the product manufacturer.

- **Base:** Keep the base clean and free of debris to ensure smooth swiveling and hydraulic operation.

4.2 General Care:

- Regularly check all bolts and screws to ensure they are tight. Tighten as needed.
- Keep fingers away from moving parts during operation to prevent injury.
- Do not use the chair if any part is damaged. Contact support for replacement parts or repair.
- Avoid exposing the chair to direct sunlight or extreme temperatures for prolonged periods, as this can damage the upholstery.

5. TROUBLESHOOTING

If you encounter any issues with your barber chair, refer to the following common troubleshooting steps:

5.1 Chair Not Raising/Lowering:

- Ensure the hydraulic pump lever is fully engaged.
- Check for any obstructions around the hydraulic pump mechanism.
- If the chair is not lowering, ensure a client is seated to provide sufficient weight for the hydraulic system to operate.

5.2 Chair Wobbles/Unstable:

- Verify that all assembly bolts and screws are securely tightened.
- Ensure the chair is placed on a flat, even surface.
- Check the base for any damage or unevenness.

5.3 Recline Mechanism Not Working:

- Confirm the recline lever is fully engaged and not obstructed.
- Inspect the recline mechanism for any visible damage or foreign objects.

If these steps do not resolve the issue, please contact customer support.

6. SPECIFICATIONS

Product Specifications

Feature	Detail
Brand Name	Artist hand
Model Name	#5009 Hydraulic Styling Salon Chair
