4. MAINTENANCE

To maintain the appearance and longevity of your Zinus Dachele Upholstered Platform Bed Frame, follow these simple care instructions:

- **Cleaning:** Wipe the upholstered surfaces with a dry cloth to remove dust and light debris. For spills or stains, gently blot with a clean, damp cloth and mild soap, then wipe dry. Avoid harsh chemicals or abrasive cleaners.
- **Frame Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Slat Care:** Ensure the wooden slats are free from excessive moisture or damage. Replace any broken or severely warped slats to maintain proper mattress support.

5. TROUBLESHOOTING

If you encounter any issues with your bed frame, consider the following common troubleshooting tips:

- **Squeaking Noises:** Squeaking often indicates loose connections. Re-tighten all bolts and screws on the frame. Ensure the wooden slats are properly seated and the Velcro strips (if applicable) are making full contact with the frame.
- **Instability/Wobbling:** Check that all frame components are correctly aligned and securely fastened. Ensure the bed is placed on a level surface.
- **Mattress Sagging:** Verify that the wooden slats are evenly spaced and not broken or damaged. Ensure your mattress is compatible with a slat-supported platform bed and is not excessively heavy for the frame's capacity.
- **Missing Parts:** If any parts were missing during assembly, refer to the warranty and support section for contact information to request replacements.

Important Safety Warning:

Ensure proper assembly to prevent instability or collapse. Do not exceed the maximum weight capacity of 700 pounds. Be aware of potential pinch points or sharp edges during assembly and use. Always follow all included instructions for assembly and maintenance.
