Amazon Basics WI-GAR1436B

Amazon Basics Adjustable Double Hanging Rod Garment Rolling Closet Organizer Rack

MODEL: **WI-GAR1436B**

---

1. Introduction

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your Amazon Basics Adjustable Double Hanging Rod Garment Rolling Closet Organizer Rack. Please read all instructions carefully before assembly and use to ensure safe and efficient operation.
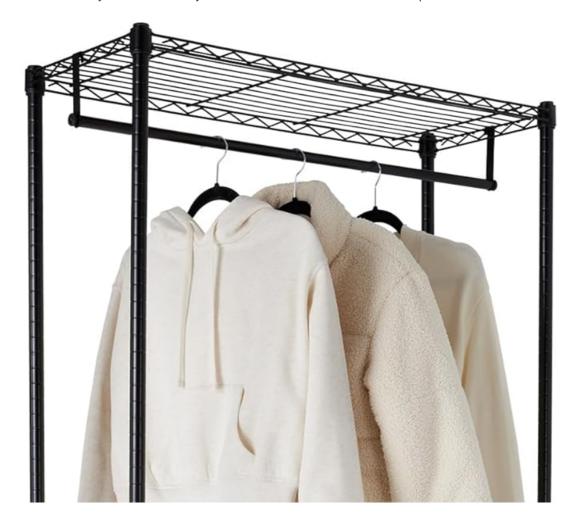

Image 1: The Amazon Basics Double Hanging Rod Garment Rack, fully assembled and in use, showcasing its double hanging rods, top and bottom shelves, and rolling casters. Various garments and shoes are displayed on the rack.

2. Safety Information

- Keep all packaging materials away from children.
- Ensure all parts are securely fastened before use.
- Do not exceed the maximum weight capacity: 400 pounds when stationary, 200 pounds when moving.
- Use on a flat, stable surface. Engage wheel locks when the rack is stationary.
- Avoid climbing on the rack or allowing children to play with it.
- Distribute weight evenly across hanging rods and shelves to prevent tipping.

3. Package Contents

Verify that all components are present before beginning assembly. No tools are required for assembly.

- Main vertical poles (sections A, B, C)
- Top shelf (D)
- Bottom shelf (E)
- Adjustable hanging rods (F)
- Side-swing arm hanger (G)
- Plastic sleeves (H)
- Industrial wheels (I) - 2 with locking mechanism
- Wrench (M) - for securing wheels

4. Setup and Assembly

Assembly is easy and requires no additional tools beyond what is provided.

1. **Install Wheels:** Screw the four industrial wheels (I) into the bottom of the main vertical poles. Ensure the two locking wheels are on the same side for easier access. Use the provided wrench (M) to secure them.

2. **Assemble Vertical Poles:** Connect the pole sections (A, B, C) by screwing them together to form four complete vertical poles.

3. **Attach Plastic Sleeves:** Place two plastic sleeves (H) on each pole set at the desired height for your bottom shelf. Ensure the 'TOP' arrow on each sleeve points upwards.

4. **Install Bottom Shelf:** Gently slide the bottom shelf (E) over the plastic sleeves until it rests securely. Use a rubber mallet (not included) to gently tap the shelf down for a secure fit, if needed.

5. **Attach Plastic Sleeves for Top Shelf:** Place two plastic sleeves (H) on top of each pole set at the desired height for your top shelf.

6. **Install Top Shelf:** Gently slide the top shelf (D) over the plastic sleeves until it rests securely.

7. **Attach Hanging Rods:** Attach the adjustable hanging rods (F) and the side-swing arm hanger (G) to the desired positions on the poles. These can be adjusted to accommodate different garment lengths.

Image 2: The Amazon Basics Double Hanging Rod Garment Rack, empty and viewed from the front, highlighting its two hanging rods and two shelves. This view demonstrates the rack's structure before items are placed on it.

5. Operating Instructions

- **Adjusting Shelf Height:** The shelves can be adjusted to various heights along the vertical poles. To adjust, remove items from the shelf, unclip the plastic sleeves, reposition them to the desired height,

and then re-secure the shelf.

- **Using Hanging Rods:** Utilize the upper and lower hanging rods for various garments. The side-swing arm hanger provides additional space for accessories or longer items.

- **Mobility:** The rack is equipped with four industrial wheels for easy movement. Two of these wheels feature a locking mechanism. To move the rack, unlock the wheels. To keep it stationary, engage the locks on the two wheels.

- **Weight Distribution:** Always distribute the weight of your items evenly across the hanging rods and shelves to maintain stability and prevent tipping.

Image 3: An angled view of the Amazon Basics Double Hanging Rod Garment Rack, showcasing its capacity with various clothing items and shoes. This perspective highlights the dual hanging rods and the utility of the top and bottom shelves.

6. Maintenance

- **Cleaning:** Wipe down the metal surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the black finish.

- **Inspection:** Periodically check all connections and fasteners to ensure they remain tight and secure.

- **Rust Protection:** The heavy-duty steel construction with a black finish is designed for durability and

rust resistance. However, avoid prolonged exposure to excessive moisture to maintain its condition.

7. Troubleshooting

- **Rack is Wobbly:** Ensure all pole sections are fully screwed together and all plastic sleeves are correctly positioned and securely holding the shelves. Check that the wheels are tightly screwed into the poles.
- **Difficulty Rolling:** Verify that the locking mechanisms on the wheels are disengaged. Clean any debris from the wheels.
- **Shelf Sliding Down:** Ensure the plastic sleeves are correctly installed with the 'TOP' arrow facing upwards and are firmly gripping the poles. The shelf should rest securely on these sleeves.

8. Specifications

Feature	Detail
Brand	Amazon Basics
Model Number	WI-GAR1436B
Color	Black
Material	Alloy Steel
Product Dimensions (LxWxH)	35.83"D x 13.98"W x 72.05"H
Installation Type	Free Standing
Special Feature	With Adjustable Shelves
Load Capacity (Stationary)	400 Pounds (181.4 kg)
Load Capacity (Moving)	200 Pounds (90.7 kg)
Assembly Required	Yes (No tools required)
Number of Shelves	2 (Top and Bottom)

Weight Capacity

With casters

50 lbs / 22.7 kg Capacity per shelf / rod when mobile	**100 lbs / 45.4 kg** Capacity per shelf / rod when stationary
200 lbs / 90.7 kg Maximum load when mobile	**400 lbs / 181.4 kg** Maximum load when stationary
