BISSELL UK 2369

BISSELL 3-in-1 Stair and Upholstery Tool

MODEL 2369 INSTRUCTION MANUAL

Introduction

This instruction manual provides guidance for the proper use and maintenance of your BISSELL 3-in-1 Stair and Upholstery Tool, Model 2369. This accessory is designed to enhance the cleaning capabilities of compatible BISSELL upright and portable carpet cleaners, allowing for effective cleaning of stairs, upholstery, and other hard-to-reach areas. Please read these instructions thoroughly before first use to ensure safe and efficient operation. Always refer to your main carpet cleaner's instruction manual for specific safety warnings and operating procedures related to the primary cleaning unit.

Product Overview

The BISSELL 3-in-1 Stair and Upholstery Tool is a versatile attachment featuring a rotating head with three distinct cleaning edges. This design allows for optimized cleaning on various surfaces and angles.

Image 3: Another top view of the tool, emphasizing its function as a '3-in-1 Stair Tool' and the head rotation feature.

Setup

Before attaching the 3-in-1 tool, ensure your carpet cleaner is unplugged and turned off. Refer to your carpet cleaner's manual for specific instructions on attaching accessories.

1. Locate the accessory hose on your compatible BISSELL carpet cleaner.
2. Align the connector end of the 3-in-1 tool with the end of the accessory hose.
3. Push the tool firmly onto the hose until it clicks securely into place. Ensure a tight connection to prevent loss of suction.

Operating Instructions

The 3-in-1 tool is designed for cleaning stairs and upholstery. Its rotating head allows you to select the optimal cleaning edge for the task.

Selecting the Cleaning Edge

The tool head can be twisted to expose one of three cleaning edges:

- **Flat Edge:** Ideal for flat surfaces like upholstery cushions or stair treads.
- **Pointed Edge:** Suitable for corners, crevices, and tight areas.
- **Rounded Edge:** Best for curved surfaces or the rounded edges of stairs.

To change the cleaning edge, simply twist the head of the tool until the desired edge is facing downwards and locked into position. Ensure the chosen edge is securely in place before cleaning.

Cleaning Stairs and Upholstery

1. Prepare your carpet cleaner according to its instruction manual (fill tanks, plug in, turn on).
2. Select the appropriate cleaning edge on the 3-in-1 tool for the surface you are cleaning.
3. Hold the tool firmly against the surface. Press the spray trigger on your carpet cleaner's hose to apply cleaning solution.

4. Slowly move the tool over the soiled area, pulling it towards you while simultaneously releasing the spray and engaging the suction. Overlap passes slightly to ensure thorough cleaning.
5. Release the spray trigger and make additional passes over the area to suction up any remaining solution and dirt.
6. For heavily soiled areas, repeat the process.

Maintenance

Regular cleaning of the 3-in-1 tool ensures optimal performance and longevity.

1. After each use, disconnect the tool from the carpet cleaner's hose.
2. To clean the clear cover and brushes, locate the release tab on the tool and gently detach the clear cover from the main body.

Image 10: Hands demonstrating how to detach the clear cover for cleaning.

3. Rinse the clear cover and the brush area under running water to remove any dirt, debris, or cleaning solution residue. Use a soft brush if necessary to clean the bristles.
4. Allow all parts to air dry completely before reassembling.
5. Once dry, align the clear cover with the main body and snap it back into place until it is secure.

Storage

Store the 3-in-1 tool in a clean, dry place, away from extreme temperatures. Ensure it is fully dry before storage to prevent mildew or odor.

Troubleshooting

If you encounter issues while using the 3-in-1 tool, consider the following:

- **Poor Suction:** Ensure the tool is securely attached to the hose. Check for any blockages in the tool's nozzle or the hose itself. Verify that the clear cover is properly reattached after cleaning.
- **No Spray:** Confirm that your carpet cleaner's solution tank is filled and properly seated. Check the spray trigger on your main unit's hose for proper function.
- **Tool Not Rotating:** Ensure no debris is obstructing the rotation mechanism. Clean the tool thoroughly as per the maintenance section.

For issues related to the main carpet cleaner unit, such as power, motor function, or overall solution delivery, please refer to the specific troubleshooting section in your carpet cleaner's instruction manual.
