Funko POP! Marvel Black Panther Erik Killmonger Glow In The Dark Panther Exclusive Instruction Manual

Model: 23351

1. PRODUCT OVERVIEW

The Funko POP! Marvel Black Panther Erik Killmonger Glow In The Dark Panther Exclusive is a collectible vinyl bobble-head figure. This figure, number 279 in the Marvel Black Panther series, features Erik Killmonger in his distinctive Black Panther suit with gold accents, designed to glow in the dark.

This image displays the Funko POP! Erik Killmonger figure, number 279 in the Marvel Black Panther series. The figure is shown both inside its clear-fronted display box and standing freely. The box highlights the 'Glow in the Dark' feature. The

figure itself depicts Erik Killmonger in his Black Panther suit, featuring intricate gold detailing and holding two blades.

2. SETUP

1. **Unboxing:** Carefully remove the figure from its packaging. The figure is secured within a clear plastic insert inside the cardboard box.
2. **Placement:** Place the figure on a flat, stable surface to prevent it from falling. Ensure the display area is clean and free from direct sunlight for prolonged periods to prevent potential fading of colors.
3. **Glow Feature Activation:** To activate the glow-in-the-dark feature, expose the figure to a bright light source (e.g., sunlight, fluorescent light, or UV light) for several minutes. The longer the exposure, the brighter and longer the glow will last in a dark environment.

3. OPERATING THE GLOW FEATURE

The Erik Killmonger figure's glow-in-the-dark feature is passive and does not require batteries or electronic components. It relies on phosphorescent materials embedded in the figure's design.

- **Charging:** Expose the figure to a strong light source. Natural daylight or a bright lamp are effective. UV light can provide a more intense and rapid charge.
- **Observation:** Once charged, move the figure to a completely dark room or area to observe the glow effect. The intensity of the glow will gradually diminish over time until it is recharged.

4. MAINTENANCE

- **Cleaning:** To clean the figure, gently wipe it with a soft, dry cloth. For stubborn dust or smudges, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the paint or finish.
- **Storage:** Store the figure in a cool, dry place away from direct sunlight and extreme temperatures. If storing for extended periods, consider keeping it in its original packaging or a protective display case to prevent dust accumulation and environmental damage.
- **Handling:** Handle the figure by its base or body to avoid putting stress on smaller parts, such as the bobble-head spring or accessories.

5. TROUBLESHOOTING

Figure Does Not Glow in the Dark

- **Insufficient Light Exposure:** Ensure the figure has been exposed to a bright light source for an adequate amount of time (at least 5-10 minutes).
- **Ambient Light:** Verify that the viewing environment is completely dark. Even small amounts of ambient light can reduce the perceived glow effect.
- **Light Source Type:** While most light sources work, UV light (blacklight) is particularly effective for charging phosphorescent materials and can produce a more vibrant glow.

6. SPECIFICATIONS

Feature	Detail
Product Dimensions	2.36 x 2.76 x 3.54 inches
Item Weight	7.2 ounces
Manufacturer	FunKo
ASIN	B0799NKNWM
Item Model Number	23351
Date First Available	March 5, 2018

7. WARRANTY AND SUPPORT

Funko products are manufactured with attention to detail and quality. For specific warranty information or support inquiries regarding your Funko POP! figure, please refer to the official Funko website or contact their customer service directly. Keep your purchase receipt as proof of purchase.
