CubicFun MC254h

CubicFun 3D Puzzle Cityline Paris (Model MC254h)

Instruction Manual

1. INTRODUCTION

This manual provides instructions for the assembly and care of your CubicFun 3D Puzzle Cityline Paris, model MC254h. This 3D puzzle allows for the construction of key Paris landmarks, including the Eiffel Tower, Notre Dame de Paris, The Louvre, and Arc de Triomphe. The design provides a detailed representation of these architectural structures. The completed model represents significant architectural elements of Paris, providing a tangible representation of the city's heritage.

Image 1.1: The CubicFun 3D Puzzle Cityline Paris model, featuring multiple landmarks, with its packaging.

The puzzle consists of 114 pieces made from green EPS foam board. This material is designed for safety and ease of handling. Assembly does not require additional tools or adhesive, as pieces are designed to interlock. A step-by-step instruction manual is included. This 3D puzzle is suitable for individuals aged 8 years and older. It can serve as an educational activity and, once assembled, functions as a display model. Engagement with this 3D puzzle can contribute to the development of cognitive and motor skills. The assembly process offers a focused activity.

4 PARIS LANDMARKS IN ONE

Captures The Romantic Memory of Paris Attractions

2. SAFETY INFORMATION

- **Age Recommendation:** This product is recommended for ages 8 years and up.
- **Small Parts:** The puzzle contains small parts which may pose a choking hazard for young children. Keep out of reach of children under 3 years old.
- **Material Safety:** The EPS foam board material is non-toxic. However, avoid ingestion.
- **Handling:** Handle pieces with care to prevent bending or tearing, especially during removal from the sheet.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Pre-cut EPS foam board puzzle sheets (114 pieces)

- Illustrated Instruction Manual
- Punch-out tool (for removing small pieces)

4. SETUP AND ASSEMBLY

4.1 Preparation

1. Unpack all contents from the box.
2. Review the included instruction manual thoroughly before starting.
3. Identify all puzzle sheets and familiarize yourself with the numbering system.
4. Prepare a clean, flat, and well-lit workspace.

4.2 Assembly Guidelines

- No glue or additional tools are required for assembly. The pieces are designed to interlock.
- Carefully punch out each piece from the foam board sheets. Use the provided punch-out tool for smaller or more intricate parts.
- Follow the numerical sequence indicated in the instruction manual. Each piece is typically numbered, and the steps guide you through the construction.
- Insert tabs into corresponding slots gently. Do not force pieces, as this may cause damage.
- Refer to the illustrations in the manual for visual guidance at each step.

PARIS / The Louvre

Constructed from the late 12th-13th century, is the world's largest art museum & a historic monument in Paris, and is best known for being the home of the Mona Lisa.

4.3 Landmark Specific Assembly Notes

The manual provides detailed, step-by-step instructions for each landmark. Pay close attention to the unique structural elements of each:

- **Eiffel Tower:** Focus on the intricate lattice structure and ensuring vertical alignment.
- **Notre Dame de Paris:** Assemble the facade and spires carefully, noting the detailed windows and architectural features.
- **The Louvre:** Construct the main building and the iconic glass pyramid, ensuring proper placement on the base.
- **Arc de Triomphe:** Build the archway and its decorative elements, integrating it smoothly into the skyline base.

PARIS / EIFFEL TOWER

Constructed from 1887-1889, is a world-famous building and one of the symbols of French culture, and the tallest building in Paris.

Image 4.2: Detailed view of the Eiffel Tower puzzle component.

PARIS / Notre Dame de Paris

Constructed from 1163-1260, its pioneering use of enormous & colorful rose windows, as well as naturalism & abundance of sculptural decoration.

Image 4.3: Detailed view of the Notre Dame de Paris puzzle component.

PARIS / Arc de Triomphe

Constructed from 1806-1836, was built by Napoleon to commemorate the victory of defeating the Russian-Austrian allied forces in 1805.

5. OPERATING (DISPLAY AND USE)

Once assembled, the CubicFun 3D Puzzle Cityline Paris is intended for display. Place the completed model on a stable, flat surface away from direct sunlight, excessive heat, or moisture to preserve its integrity and colors. The model is not designed for active play due to its delicate interlocking structure.

6. MAINTENANCE AND CARE

- **Cleaning:** To clean the assembled model, gently dust with a soft, dry cloth or a soft brush. Avoid using water, cleaning solutions, or abrasive materials, as these can damage the foam board.
- **Storage:** If disassembling for storage, do so carefully to avoid bending or tearing pieces. Store pieces flat in their original packaging or a similar protective container.
- **Handling:** Always handle the model by its base to prevent damage to the individual structures.

7. TROUBLESHOOTING

- **Pieces Not Fitting:** Ensure you are using the correct pieces for the current step as indicated in the manual. Verify the orientation of the pieces. Do not force pieces; gentle pressure should be sufficient for interlocking.
- **Missing Pieces:** Double-check all puzzle sheets and the packaging. If a piece is genuinely missing, contact CubicFun customer support (contact information not provided in this manual).
- **Bent or Damaged Pieces:** Handle pieces carefully when punching them out. If a piece is slightly bent, it may still be usable. Severely damaged pieces may affect the final appearance or stability of the model.
- **Model Instability:** Ensure all interlocking tabs are fully seated in their corresponding slots. Review previous steps to confirm correct assembly.

8. SPECIFICATIONS

Specification	Detail
Product Dimensions (L x W x H)	11.73 x 8.58 x 2.36 inches (Box)
Assembled Dimensions (Approx.)	38.1 cm (15 inches) x 25.4 cm (10 inches) x 32.7 cm (12.9 inches)
Item Weight	1.08 pounds
ASIN	B079FG33KS
Item Model Number	MC254h
Manufacturer Recommended Age	8 years and up
Number of Pieces	114
Material	EPS Foam Board
Manufacturer	CubicFun
