LKPower 6V AC Adapter Charger User Manual

For Philips Avent SCD600/10 and SCD600/00 Video Baby Monitors

INTRODUCTION

This manual provides essential instructions for the safe and effective use of your LKPower 6V AC Adapter Charger, designed for compatibility with Philips Avent SCD600/10 and SCD600/00 Video Baby Monitors. Please read this manual thoroughly before use and retain it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions carefully before using the adapter.

- Do not expose the adapter to water, moisture, or extreme temperatures.
- Do not attempt to disassemble, modify, or repair the adapter. Refer servicing to qualified personnel.
- Use this adapter only with the specified Philips Avent SCD600/10 or SCD600/00 Video Baby Monitors. Using it with incompatible devices may cause damage.
- Unplug the adapter from the wall outlet during lightning storms or when unused for extended periods.
- Ensure adequate ventilation around the adapter during operation to prevent overheating.
- Keep the adapter and cable out of reach of children.

PACKAGE CONTENTS

- 1 x LKPower 6V AC Adapter Charger

SETUP

Follow these steps to set up your LKPower AC Adapter Charger:

1. **Unpack:** Carefully remove the AC adapter from its packaging.
2. **Inspect:** Visually inspect the adapter and cable for any signs of damage. Do not use if damaged.
3. **Connect to Monitor:** Insert the barrel connector end of the adapter cable into the power input port of your Philips Avent SCD600/10 or SCD600/00 Video Baby Monitor. Ensure a firm connection.
4. **Connect to Power Outlet:** Plug the AC adapter block into a standard electrical wall outlet (AC 100-240V).
5. **Verify Power:** Confirm that your baby monitor powers on or indicates that it is charging, according to its normal operation.

OPERATING INSTRUCTIONS

Once properly connected, the LKPower 6V AC Adapter Charger provides continuous power to your Philips Avent baby monitor. If your baby monitor is equipped with a rechargeable battery, the adapter will also facilitate charging of that battery while connected to a live power outlet.

The adapter is designed for continuous operation. No further user interaction is typically required after initial setup.

MAINTENANCE AND CARE

- **Cleaning:** Disconnect the adapter from the power outlet and the monitor before cleaning. Wipe the adapter with a dry, soft cloth. Do not use liquid cleaners, aerosols, or harsh chemicals.
- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly coiling the cable.
- **Handling:** Avoid dropping the adapter or subjecting it to strong impacts. Do not pull on the cable to disconnect the adapter from the wall outlet or the monitor; always grasp the plug or connector directly.

TROUBLESHOOTING

If you encounter issues with your LKPower AC Adapter, refer to the following table:

Issue	Possible Solution
Monitor not powering on or charging.	Ensure the adapter is securely plugged into both the wall outlet and the baby monitor. Verify the wall outlet is functional by testing it with another device. Check the adapter cable for any visible damage or kinks.
Adapter feels excessively hot during operation.	Slight warmth is normal. If it is excessively hot, immediately unplug the adapter. Ensure the adapter has adequate ventilation and is not covered. If the issue persists, discontinue use and contact customer support.
Intermittent power supply to the monitor.	Check all connections for looseness. Inspect the cable and connectors for any signs of damage or wear.

SPECIFICATIONS

Image: Front and side views of the LKPower 6V AC Adapter Charger, highlighting its compact design.

Feature	Detail
Model Number	180130439
Input Voltage	AC 100-240V, 50/60Hz
Output Voltage	DC 6V
Output Current	2A (12 Watts)
Connector Type	Barrel Connector
Cable Length	Approximately 76 inches (193 cm)
Protections	Over Voltage Protection, Over Heat Protection
Compatible Devices	Philips Avent SCD600/10, SCD600/00 Video Baby Monitors
