Video 2.1: This video demonstrates the installation process of the Yealink T41T42-DeskMount Base Bracket Stand onto a compatible Yealink IP phone. It shows how to align and secure the stand to the phone's base by snapping it into place.

2.2. Step-by-Step Installation

1. **Prepare the Phone:** Place your Yealink IP phone (T40, T41P, T41S, T42G, or T42S) face down on a soft, clean surface to prevent scratches. Ensure the phone is powered off and disconnected from any cables.
2. **Orient the Stand:** Hold the DeskMount Base Bracket Stand with the two small tabs facing upwards and the larger, flat surface facing away from you. The stand has specific grooves and clips designed to align with the phone's base.
3. **Align the Stand:** Carefully align the stand with the corresponding slots on the back of the phone. The two small tabs on the stand should fit into the upper slots on the phone's base.
4. **Attach the Stand:** Gently push the stand into the slots until you hear a click or feel it firmly snap into place. Ensure both sides of the stand are securely fastened to the phone. Verify that there is no wobble and the stand is flush with the phone's base.
5. **Position the Phone:** Once the stand is attached, carefully turn the phone upright. The stand will now support the phone at an ergonomic angle for desk use.

3. OPERATING INSTRUCTIONS

The Yealink T41T42-DeskMount Base Bracket Stand is a passive accessory that provides a fixed ergonomic angle for your IP phone. No specific operational steps are required beyond its initial installation.

- **Stable Placement:** Ensure the phone with the attached stand is placed on a flat, stable surface to prevent accidental tipping.
- **Viewing Angle:** The stand provides a fixed, optimized viewing angle for the phone's display and keypad.

4. MAINTENANCE

To ensure the longevity and appearance of your DeskMount Base Bracket Stand, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry, or slightly damp cloth to wipe the stand. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the plastic finish.
- **Storage:** If the stand is removed from the phone, store it in a clean, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically check the stand for any signs of damage or wear. If the stand is cracked or broken, it should be replaced to ensure stable support for your phone.

5. TROUBLESHOOTING

If you encounter issues with your DeskMount Base Bracket Stand, refer to the following common problems and solutions:

- **Stand does not attach securely:**
 - Ensure the stand is correctly oriented and aligned with the slots on the back of the phone.
 - Apply firm, even pressure until you hear or feel the stand snap into place.
 - Verify that your phone model (T40, T41P, T41S, T42G, T42S) is compatible with this specific stand.
 - Inspect the stand and phone slots for any obstructions or damage.
- **Phone is wobbly on the stand:**
 - Confirm that the stand is fully engaged and locked into all attachment points on the phone.
 - Ensure the phone is placed on a flat, level surface.
 - Check the stand for any cracks or deformities that might affect its stability. If damaged, replace the stand.
