2. Driver Installation

For optimal performance, install the latest drivers from the official HUION website.

1. Visit www.huion.com/download.
2. Select your product model (H950P) and operating system (Windows, macOS, Linux, Android).
3. Download and run the installer. Follow the on-screen instructions.
4. Restart your computer after installation if prompted.

OPERATING INSTRUCTIONS

1. Using the PW100 Battery-Free Stylus

The PW100 stylus offers 8192 levels of pressure sensitivity and supports $\pm 60^\circ$ tilt recognition for a natural drawing experience.

- The pen features two customizable side buttons. By default, these buttons can switch between pen and eraser functions.
- Store the pen in the provided pen holder when not in use. The pen holder also contains replacement nibs.

New Tilt Function

$\pm 60^\circ$ Levels Natural Tilt Recognition

2. Customizing Express Keys

The H950P features 8 programmable press keys on the tablet. These keys can be customized through the HUION driver software to assign shortcuts for various applications.

1. Open the HUION driver software on your computer.
2. Navigate to the "Press Key" or "Express Key" settings.
3. Assign desired functions or shortcuts to each key.
4. Settings can be configured for specific applications.

3. Adjusting the Working Area

The active drawing area of the tablet is approximately 8.7 x 5.4 inches. You can adjust the mapping of this area to your screen(s) via the HUION driver software.

Image: A diagram illustrating the working area of the HUION Inspiroy H950P tablet, measuring 8.7 x 5.4 inches (221 x 137 mm).

4. Left-Handed Mode

The tablet supports left-handed users. This setting can be configured within the HUION driver software.

MAINTENANCE

1. Cleaning the Tablet and Pen

Use a soft, dry cloth to gently wipe the surface of the tablet and pen. Avoid using harsh chemicals or abrasive materials.

2. Replacing Pen Nibs

When the pen nib wears down, replace it with one of the 8 spare nibs located inside the pen holder.

1. Use the nib clip (often integrated into the pen holder) to carefully pull out the old nib.
2. Insert a new nib firmly into the pen.

TROUBLESHOOTING

Common Issues and Solutions

- **No Pen Pressure:** Ensure the latest driver is installed correctly. Reinstall the driver if necessary. Check your drawing software settings for pen pressure options.
- **Pen Not Responding:** Verify the USB cable connection. Try a different USB port. Ensure the tablet is recognized by your computer.
- **Inaccurate Cursor Movement:** Calibrate the working area in the HUION driver settings.
- **macOS Compatibility Issues:** Some macOS versions may require specific security permissions for external USB devices. Refer to HUION's official support or contact customer service for assistance with connection problems on macOS.

For further assistance, please visit the official HUION support website or consult the FAQ section on their product page.
