PawHut D51-092GN

PawHut Wooden Chicken Coop Instruction Manual

Model: D51-092GN

1. Product Overview

The PawHut Wooden Chicken Coop is designed to provide a safe and comfortable habitat for your chickens. It features a main living area, a nesting box, and an enclosed run, all constructed from durable fir wood with an asphalt roof for weather protection. A removable tray facilitates easy cleaning, and multiple lockable doors ensure convenient access and security.

This coop is suitable for 1-2 chickens, offering a spacious living area of approximately 4.4 sq.ft for the coop and 13.3 sq.ft for the run.

Image 1.2: The chicken coop situated in a green garden, demonstrating its outdoor placement.

2. Assembly and Setup

Assembly of the PawHut Wooden Chicken Coop is required. Please follow the included manual carefully. It is highly recommended to have **two people** for assembly, especially when attaching the roof sections, to ensure proper alignment and secure fastening.

The components feature pre-drilled holes, and the instructions are primarily picture-based for ease of understanding. Exercise caution when screwing components together, as the wood can be soft and may split if excessive force is applied. Using a drill with appropriate torque settings is recommended.

Once assembled, place the coop in a suitable outdoor area that provides adequate space and protection for your chickens.

3. Operating Instructions

3.1. Access and Security

The coop features several lockable doors for easy access to the nesting box, main coop area, and the outdoor run. These doors allow for convenient feeding, watering, and egg collection, as well as access for cleaning and maintenance.

Image 3.1: The chicken coop with various doors open, highlighting the multiple access points and the lockable latches for security.

3.2. Nesting Box

A dedicated nesting box with a hinged top is provided for egg laying. The hinged top allows for easy collection of eggs without disturbing the chickens in the main coop area.

Image 3.2: A detailed view of the nesting box, showing its internal partition and the hinged lid for easy access.

3.3. Ramp and Ventilation

A built-in ramp provides easy access for chickens to move between the elevated main coop and the ground-level run. A screened window in the main coop ensures proper ventilation and airflow, contributing to a healthy environment for your poultry.

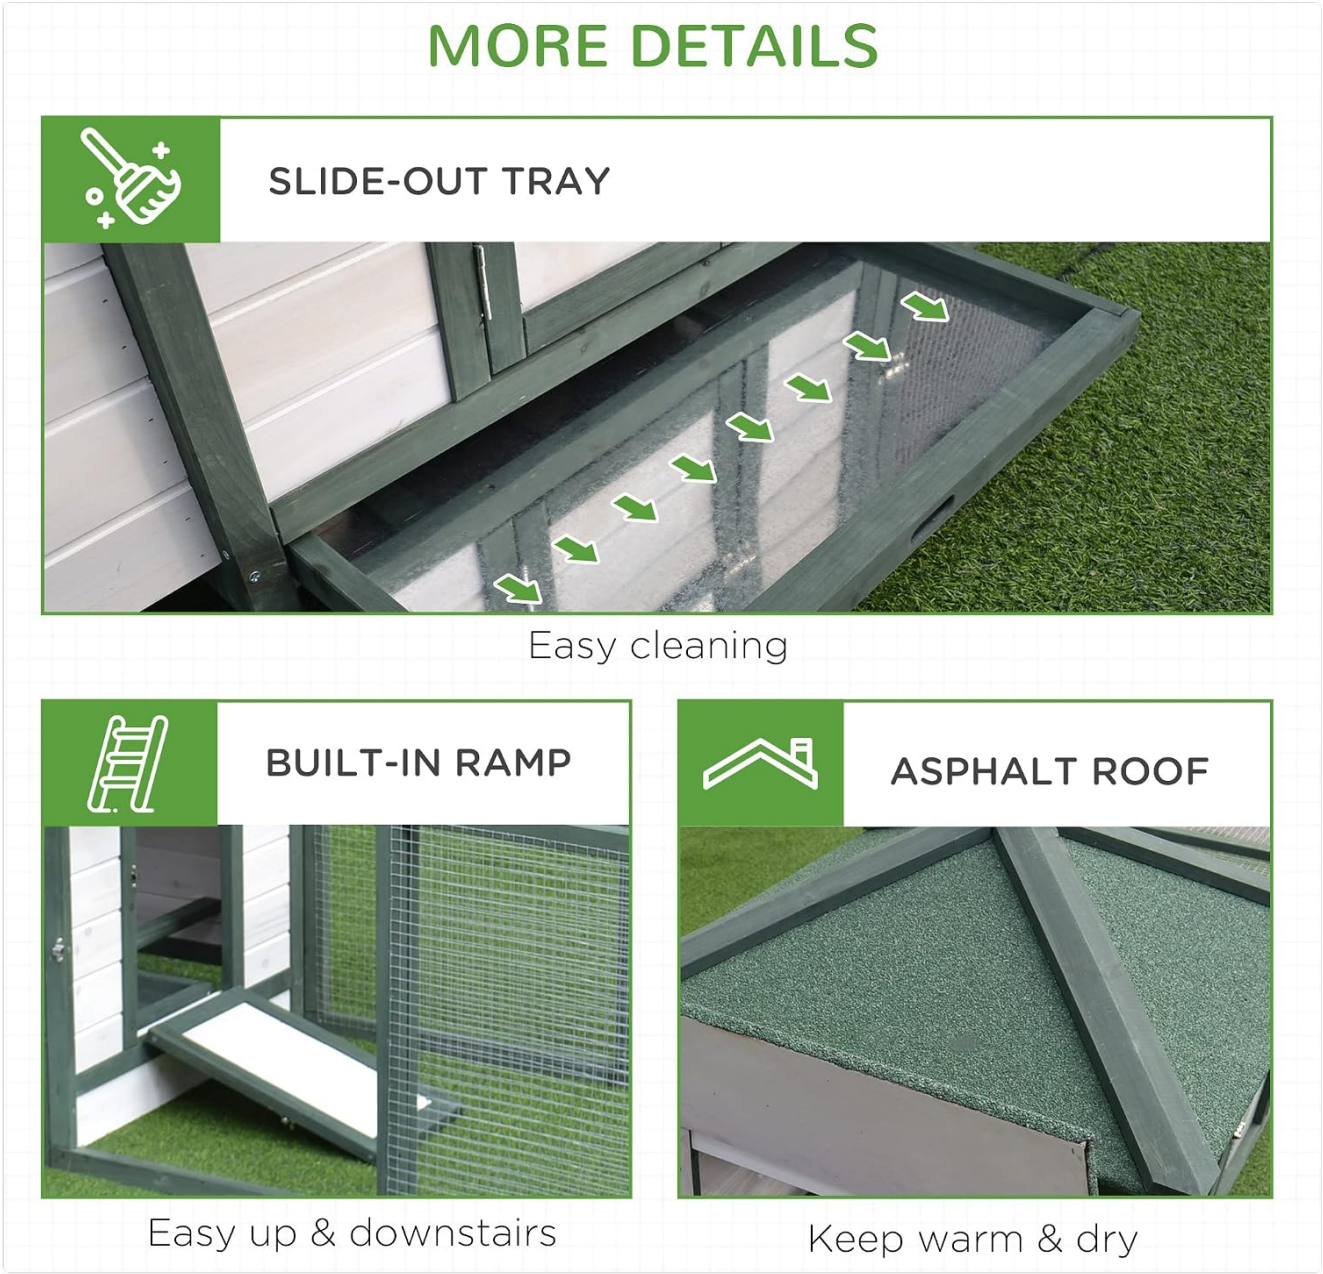

Image 3.3: A composite image highlighting the slide-out tray for cleaning, the built-in ramp for chicken access, and the asphalt roof for weather protection.

4. Maintenance and Care

Regular maintenance is crucial for the longevity and hygiene of your chicken coop.

4.1. Cleaning

The coop is equipped with a built-in slide-out tray located beneath the main living area. This tray collects droppings and waste, allowing for quick and easy removal and cleaning. For deeper cleaning, the various access doors provide ample entry to all sections of the coop and run.
It is recommended to regularly clean the tray and replace bedding as needed to maintain a sanitary environment for your chickens.

4.2. Weather Protection

The asphalt roof and painted fir wood walls are designed to protect the coop from rainwater and other weather elements. To maximize the lifespan of the coop, it is advised to keep it in a dry place and consider additional

weatherproofing measures, such as applying a wood sealant or covering it during harsh weather conditions, especially in areas with significant rain or snow.

5. Troubleshooting

This section addresses common concerns and provides solutions for optimal use of your chicken coop.

- **Wood Splitting During Assembly:** The wood used for the coop can be soft. To prevent splitting, pre-drill pilot holes if necessary, and use a drill with adjustable torque settings. Avoid over-tightening screws.
- **Coop Size Concerns:** This coop is designed for 1-2 standard-sized chickens. If you plan to house more chickens or larger breeds, consider the interior dimensions carefully. For larger flocks, multiple coops or a larger custom setup may be required.
- **Predator Protection:** While the coop offers basic security with lockable doors, for areas with active predators, additional reinforcement may be necessary. This could include burying wire mesh around the perimeter of the run, adding stronger latches, or securing the coop to the ground.
- **Weather Durability:** Although designed for outdoor use, extreme weather can impact the wood. Regular inspection for wear and tear, especially on the roof and painted surfaces, is recommended. Applying a non-toxic, pet-safe wood sealant annually can significantly extend the coop's lifespan.

6. Specifications

Feature	Detail
Brand	PawHut
Model Name	Chicken Coop
Model Number	D51-092GN
Overall Dimensions (L x W x H)	77.25" x 30" x 38.25"
Item Weight	55.1 Pounds
Color	Green
Material	Alloy Steel, Pine
Special Feature	Lockable, Multi Level
Target Audience	Small Animal Pets (Chickens)
Care Instructions	Keep in a Dry Place

7. Warranty Information

This PawHut Chicken Coop comes with a**1 Year Warranty Against Manufacturer Defects**. Please retain your proof of purchase for any warranty claims. For specific terms and conditions, refer to the documentation provided with your product or contact customer support.

8. Customer Support

For any questions, concerns, or assistance with your PawHut Wooden Chicken Coop, please contact Customer Support. You can typically find contact information on the packaging, the seller's website, or through your purchase platform. The manufacturer is Aosom LLC.
When contacting support, please have your model number (D51-092GN) and purchase details readily available to facilitate a quicker resolution.
