

Pampers Splashers Swim Pants

Pampers Splashers Swim Pants User Manual

Your Guide to Happy Water Play

1. INTRODUCTION TO PAMPERS SPLASHERS SWIM PANTS

Pampers Splashers Swim Pants are designed specifically for water play, offering a comfortable and secure fit for your child during swimming, splash time, and other water activities. Unlike regular diapers, Splashers do not swell in water, ensuring your child can move freely and comfortably.

2. SAFETY INFORMATION

CAUTION: KEEP AWAY FROM ANY SOURCE OF FLAME. PAMPERS SWIM PANTS, LIKE ALMOST ANY ARTICLE OF CLOTHING, WILL BURN IF EXPOSED TO FLAME. TO AVOID RISK OF CHOKING ON PLASTIC, PADDING, OR OTHER MATERIALS, DO NOT ALLOW YOUR CHILD TO TEAR THE SWIM PANTS, OR HANDLE ANY LOOSE PIECES OF THE SWIM PANTS. DISCARD ANY TORN OR ANY LOOSE PIECES OF THE SWIM PANTS. TO AVOID SUFFOCATION, KEEP ALL PLASTIC BAGS AWAY FROM BABIES AND CHILDREN.

3. SETUP AND APPLICATION

Pampers Splashes are designed for easy application, similar to underwear. Simply slide them up your child's legs. The 360-degree stretchy waistband ensures a comfortable and snug fit around your child's waist and legs, preventing gaps and leaks during movement in water.

4. OPERATING (USAGE GUIDELINES)

Pampers Splashes are intended for use during water activities only. Their unique design prevents them from swelling in water, allowing your child to move freely without being weighed down. They feature dual leak-guard barriers around the legs to help contain messes in the water.

Important Note: These swim pants are not designed to absorb urine like regular diapers. Urine will pass through them. They are primarily designed to contain solid waste in water environments. For this reason, it is recommended to put them on just before water activity and remove them shortly after.

5. SIZING GUIDE

Selecting the correct size is crucial for optimal performance and comfort. Refer to the sizing chart below to find the best fit for your child based on their weight.

Image: Sizing chart for Pampers Splashers Swim Pants, indicating weight ranges for Small, Medium, and Large sizes.

| Size | Weight (Kg) | Weight (Lbs) (Approx.) |
|------------|-------------|------------------------|
| Small (S) | 6-11 Kg | 13-24 Lbs |
| Medium (M) | 9-15 Kg | 20-33 Lbs |
| Large (L) | 14-18 Kg | 31-40 Lbs |

6. MAINTENANCE AND DISPOSAL

As disposable swim pants, Pampers Splashers require minimal maintenance. After use, simply remove and dispose of them properly. They feature easy tear-away sides for quick and hygienic removal, especially after containing solid waste.

Image: Visual guide demonstrating the easy tear-away sides for convenient removal.

To dispose, tear the sides, roll the swim pant up, and secure with the side tabs if available, then discard in a waste bin. Do not flush.

7. TROUBLESHOOTING

- **Leakage of Urine:** Pampers Splashers are designed to contain solid waste and not to absorb urine. It is normal for urine to pass through the swim pants. For this reason, avoid putting them on too far in advance of water activities.
- **Poor Fit (Too Loose/Too Tight):** Refer to the Sizing Guide (Section 5) to ensure you are using the correct size for your child's weight. A snug fit is essential for preventing leaks and ensuring comfort in water.
- **Skin Irritation:** Ensure the swim pants are not too tight. If irritation occurs, discontinue use and consult a healthcare professional. Always ensure the skin is clean and dry before application.

8. SPECIFICATIONS

- **Brand:** Pampers
- **Model Number:** 0037000765141
- **Product Dimensions:** 4.57 x 5.63 x 8.86 inches; 6.4 ounces (for Medium 11 ct)
