Setup and Assembly

The Zinus SmartBase is designed for quick and tool-free assembly. Follow these steps:

- **Underbed Storage:** The frame provides approximately **11 inches** of clearance, offering valuable space for storage bins, boxes, or other items.
- **Headboard Compatibility:** The frame includes pre-drilled holes at both ends, allowing for the attachment of a compatible headboard (sold separately) to customize your bed's appearance.

Maintenance

To ensure the longevity of your Zinus SmartBase mattress foundation, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the metal frame with a damp cloth and mild detergent as needed. Avoid abrasive cleaners.
- **Regular Inspection:** Periodically check all bolts and connections to ensure they remain tight. Retighten if necessary.
- **Floor Protection:** The legs are equipped with plastic caps to protect your floors. Ensure these caps remain intact.

Troubleshooting

If you encounter any issues with your Zinus SmartBase, consider the following:

- **Squeaking Noises:** Ensure all bolts are securely tightened. Loose connections can cause noise.
- **Instability:** Verify that the frame is placed on a flat, even surface. Check that all legs are fully extended

and locked.
