

## Ewent EW3985

# Ewent EW3985 Universal Laptop Charger

## INSTRUCTION MANUAL

### Introduction

The Ewent EW3985 Universal Compact Laptop Charger is designed to provide reliable power for laptops and ultrabooks up to 15.6 inches. This manual provides essential information for the safe and efficient use of your charger. Please read these instructions carefully before use and retain them for future reference.

Universal Notebook Charger

4 Protection Levels

8 Tips Included

65.0 Watt

Figure 1: The Ewent EW3985 charger unit with its output cable and a connected tip. The small blue light indicates power.

## Setup

1. **Unpack Components:** Carefully unpack the charger unit, the detachable power cable, and the assortment of interchangeable tips from the packaging.
2. **Select the Correct Tip:** Identify the correct tip that matches your laptop's charging port. The EW3985 includes 10 different tips to ensure compatibility with various laptop models. Refer to your laptop's manual for the correct tip size and voltage requirements.

Figure 2: The Ewent EW3985 charger unit alongside the various interchangeable tips provided for compatibility with different laptop models.

3. **Connect the Tip:** Firmly connect the selected tip to the charger's output cable. Ensure it is securely seated to prevent loose connections.
4. **Connect the Power Cable:** Plug the detachable power cable into the input port on the rear of the charger unit.

*Figure 3: Rear view of the EW3985 charger, illustrating the input port for the power cable connection.*

5. **Connect to Power Outlet:** Plug the other end of the power cable into a standard, grounded wall outlet.
6. **Connect to Laptop:** Insert the connected tip into your laptop's charging port.

## Operating Instructions

---

- **Initiating Charge:** Once all connections are secure and the charger is plugged into a live outlet, the charger will automatically begin supplying power to your laptop. A small blue LED indicator on the charger unit will illuminate to confirm it is active and functioning.
- **Safety Features:** The EW3985 charger is equipped with quadruple protection mechanisms to ensure safe operation. These include protection against overheating, overvoltage, overcurrent, and short-circuits.
- **Automatic Shutdown:** The charger is designed to automatically cease charging when your laptop's battery reaches full capacity, preventing overcharging and extending battery life.

## Maintenance

---

- **Cleaning:** Keep the charger unit and all cables clean and free from dust. Use a soft, dry cloth for cleaning. Do not use liquid cleaners or abrasive materials.
- **Environmental Conditions:** Avoid exposing the charger to moisture, direct sunlight, or extreme temperatures (both hot and cold).
- **Cable Care:** Do not bend, twist, or crimp the cables excessively. Always grasp the plug when disconnecting from the wall outlet or laptop, rather than pulling on the cable itself, to prevent internal wire damage.
- **Storage:** When not in use, store the charger in a cool, dry place, away from children and pets.

## Troubleshooting

---

- **Charger not powering on or laptop not charging:**

- Ensure all connections are secure: the power cable to the charger, the charger to the wall outlet, and the tip to the laptop.
  - Verify the wall outlet is functional by plugging in another device.
  - Check if the correct tip is securely attached to the charger and properly inserted into the laptop's charging port.
  - If the issue persists, disconnect all components, wait a few minutes, and then reconnect them.
- **LED indicator not lit:**
    - Follow the steps above for 'Charger not powering on or laptop not charging'.
    - A non-lit LED typically indicates no power input or a connection issue.

## Specifications

---

<b>Brand</b>	Ewent
<b>Model Number</b>	EW3985
<b>Color</b>	Black
<b>Input Voltage</b>	240 Volts AC
<b>Power Output</b>	65 Watts
<b>Output Current</b>	3 A
<b>Compatible Devices</b>	Laptops and Ultrabooks up to 15.6 inches
<b>Special Features</b>	Portable, Quadruple Protection (Overheat, Overvoltage, Overcurrent, Short-circuit), Automatic Shutdown
<b>Included Tips</b>	10 interchangeable tips
