Use a small Phillips head screwdriver to open the compartment, insert the batteries according to the polarity indicators (+/-), and securely close the compartment. Batteries are included with the set.
3. **Connecting Wheelbases:** Connect the rolling wheelbases to form the train cars. These can be linked together to create a longer train.
4. **Attaching Blocks:** The large building blocks are designed for easy stacking. Attach the alphabet blocks to the train engine and wagons, or build separate structures. The blocks are sized for small hands, promoting fine motor skill development.
