Yootech Wireless Charger F500 Instruction Manual

Model: F500

1. INTRODUCTION

Thank you for choosing the Yootech Wireless Charger F500. This device provides convenient and efficient wireless charging for compatible smartphones and accessories. This manual will guide you through the setup, operation, and maintenance of your new wireless charger.

Image 1: Yootech Wireless Charging Pad

2. SETUP

1. Connect the provided 3.3ft USB Type-C cable to the wireless charging pad.
2. Connect the other end of the USB Type-C cable to a compatible power adapter. A QC 2.0/3.0 adapter is highly recommended for optimal performance (adapter not included).
3. Place the charging pad on a flat, stable surface.

3. OPERATING INSTRUCTIONS

To charge your device, simply place it centrally on the wireless charging pad. The charger will automatically detect and begin charging compatible devices.

LED Indicator Behavior:

- When the power source is connected, the GREEN LED indicator will flash for 3 seconds.
- If your phone is recognized and charging begins, the light will turn off after 16 seconds to ensure a sleep-friendly environment.

6. MAINTENANCE

- Keep the charging pad clean and free from dust and debris.
- Avoid exposing the device to liquids or extreme temperatures.
- Do not disassemble or attempt to repair the charger yourself.

7. TROUBLESHOOTING

- **Device not charging:** Ensure your device is placed centrally on the charging pad. Verify that the power adapter is a QC 2.0/3.0 type and is properly connected. Remove any metal objects or thick cases from your device.
- **Charging through cases:** The charger is designed to work with phone cases up to 4mm thick. However, cases containing magnets, metal, grips, stands, or credit cards may interfere with charging. For best results, remove such cases.
