Anne Klein AK/3158BKGB

Anne Klein Women's Genuine Diamond Ceramic Bracelet Watch

Model: AK/3158BKGB

INTRODUCTION

This manual provides essential information for the proper use and care of your Anne Klein Women's Genuine Diamond Ceramic Bracelet Watch, model AK/3158BKGB. Please read these instructions carefully to ensure optimal performance and longevity of your timepiece.

Key features of your watch include:

- Mineral crystal lens for durability.
- Black glossy dial with a genuine diamond accent at the 12 o'clock position.
- Gold-tone hands and markers for clear readability.
- Gold-tone adjustable bracelet with black ceramic center links.
- Secure jewelry clasp with an extender.
- Reliable Japanese-quartz Movement.
- Case Diameter: 30mm.
- **Note: This watch is not water resistant.**

Front view of the Anne Klein Women's Genuine Diamond Ceramic Bracelet Watch, showcasing its black dial, genuine diamond accent, and gold-tone bracelet with black ceramic links.

Setting the Time

1. Gently pull the crown (the small knob on the side of the watch case) outwards to the time-setting position.
2. Rotate the crown clockwise or counter-clockwise until the hour and minute hands indicate the correct time.
3. Once the time is set, push the crown back into its original position to engage the movement and start the watch.

Side view of the watch, highlighting the crown used for setting the time.

Adjusting the Bracelet

The bracelet features a jewelry clasp with an extender for minor adjustments. For significant resizing, such as adding or removing links, it is recommended to consult a professional jeweler. Attempting to adjust ceramic links without proper tools or expertise may cause damage.

Rear view of the watch, displaying the gold-tone and black ceramic bracelet with its jewelry clasp.

The watch as it appears on a wrist, demonstrating its elegant fit.

OPERATING THE WATCH

Your Anne Klein watch is designed for straightforward operation. Once the time is set, the Japanese-quartz movement will keep accurate time. The watch features a simple analog display with hour, minute, and second hands.

Reading the Time

The time is indicated by the position of the gold-tone hour and minute hands on the black glossy dial. The slender gold-tone hand indicates the seconds.

MAINTENANCE

Cleaning

To maintain the appearance of your watch, wipe the case and bracelet regularly with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the finish and ceramic components.

Water Resistance

Important: This watch is explicitly stated as NOT water resistant. Avoid all contact with water, including showering, swimming, or exposure to rain. Water exposure can cause severe damage to the internal movement and void the warranty.

Battery Replacement

Your watch is powered by a Lithium Metal battery (included). When the watch stops running, it indicates that the battery needs to be replaced. Battery replacement should be performed by a qualified watch technician to ensure the integrity of the watch and proper sealing.

TROUBLESHOOTING

Watch Not Running

- Check if the crown is fully pushed in. If it is pulled out, the watch will not run.
- The battery may need replacement. Consult a professional watch technician.

Time Inaccuracy

- Ensure the time was set correctly and the crown is fully pushed in.
- Extreme temperatures or strong magnetic fields can affect quartz watch accuracy.
- If inaccuracy persists, the movement may require inspection by a professional.

SPECIFICATIONS

Feature	Detail
Product Dimensions	3.1 x 3.2 x 4.3 inches
Item Model Number	AK/3158BKGB
