THE COMPLETE SERIES 1-4

This image displays the official cover art for the Blinders Series 1-4 Blu-ray set. It features the main character, Thomas Shelby, prominently. The cover also indicates 'The Complete Series 1-4', '8 Discs', and the Blu-ray Disc logo. Important playback information regarding 1080/50i compatibility is noted on the physical product packaging.

Setup

To ensure proper playback of your Blinders Series 1-4 Blu-ray set, please observe the following requirements:

- **Compatible Blu-ray Player:** A Blu-ray player capable of playing **1080/50i** format is required. Standard Blu-ray players in regions like North America (which typically use 1080/60i or 1080/24p) may not be compatible.
- **Region Compatibility:** This Blu-ray set is produced for Region B (Europe, Africa, Middle East,

Australia, New Zealand). If you are in a different region (e.g., Region A for North America), you will need a **region-free Blu-ray player** to play these discs.

- **Connecting Your Player:** Connect your Blu-ray player to your television or display using an HDMI cable for the best audio and video quality. Ensure your display supports the 1080p resolution.

Operating Instructions

1. **Inserting a Disc:** Gently hold the disc by its edges. Align the disc with the tray or slot of your Blu-ray player and insert it carefully. Avoid touching the playback surface.
2. **Starting Playback:** Once the disc is inserted, your player may automatically start playback or display a menu. If a menu appears, use your remote control to select "Play" or the desired episode.
3. **Basic Controls:**
 - **Play/Pause:** Press the Play/Pause button to start or temporarily stop playback.
 - **Stop:** Press the Stop button to end playback and return to the disc's main menu or eject the disc.
 - **Skip/Chapter Select:** Use the skip buttons (forward/backward) to jump to the next or previous chapter/episode.
 - **Fast Forward/Rewind:** Use the fast forward/rewind buttons to quickly scan through the content.
4. **Navigating Menus:** Use the arrow keys on your remote control to navigate through menu options and the "Enter" or "OK" button to make selections.
5. **Ejecting a Disc:** Press the Eject button on your player or remote control to safely remove the disc after viewing.

Maintenance and Care

Proper care of your Blu-ray discs will ensure their longevity and optimal performance:

- **Handling:** Always hold discs by their outer edges or the center hole. Avoid touching the shiny playback surface to prevent fingerprints and scratches.
- **Cleaning:** If a disc becomes dirty, gently wipe it with a soft, lint-free cloth (e.g., microfiber) from the center outwards. Do not use abrasive cleaners, solvents, or rough materials.
- **Storage:** Store discs in their original cases, away from direct sunlight, extreme temperatures, and high humidity. Keep them in a vertical position to prevent warping.
- **Avoid Bending:** Do not bend or flex the discs, as this can cause irreparable damage.

Troubleshooting

If you encounter issues while playing your Blu-ray discs, consider the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Disc will not play or displays an error message.	<ul style="list-style-type: none"> Incorrect region code. Player not compatible with 1080/50i format. Disc is dirty or scratched. Player firmware is outdated. 	<ul style="list-style-type: none"> Ensure your player is region-free or compatible with Region B. Verify your player supports 1080/50i video output. Clean the disc gently with a soft cloth. Inspect for deep scratches. Check your player manufacturer's website for firmware updates.
No audio or video during playback.	<ul style="list-style-type: none"> Loose HDMI cable connection. Incorrect audio/video settings on player or TV. 	<ul style="list-style-type: none"> Ensure HDMI cable is securely connected to both player and TV. Check audio output settings on your Blu-ray player and input settings on your TV.
Disc freezes or skips.	<ul style="list-style-type: none"> Dirty or damaged disc. Player lens is dirty. 	<ul style="list-style-type: none"> Clean the disc. If damaged, replacement may be necessary. Consider using a Blu-ray lens cleaner disc.
