Kinetic Sand Beach Sand Kingdom Playset Instruction Manual

Model: 6044142

Brand: Kinetic Sand

1. PRODUCT OVERVIEW

The Kinetic Sand Beach Sand Kingdom Playset provides an engaging sensory play experience, allowing users to build sandcastles and create sand art. This set includes 3lbs of Kinetic Beach Sand, 6 castle-themed molds, 2 multi-use tools, and a transformable sand box that doubles as a play space.

2. SETUP INSTRUCTIONS

1. **Unpack Contents:** Carefully remove all items from the product packaging. The box itself is designed to transform into a beach-themed play space.
2. **Prepare Play Space:** Unfold the product box to reveal the designated play area. Ensure the play space is on a flat, stable surface.
3. **Distribute Sand:** Place the 3lbs of Kinetic Beach Sand into the designated play area within the unfolded box.
4. **Organize Tools:** Arrange the 6 castle-themed molds and 2 multi-use tools within the play space for easy access.

Image: Children engaging with the Kinetic Sand playset, demonstrating the unfolded box as a functional play area.

3. OPERATING INSTRUCTIONS

Kinetic Beach Sand is unique, feeling like wet beach sand but remaining dry and non-sticky. It is designed for easy molding and shaping.

- **Molding Sand:** Use your hands to compress the Kinetic Sand into desired shapes. The sand adheres to itself, allowing for detailed creations.
- **Using Molds:** Fill the 6 castle-themed molds with Kinetic Sand, pressing firmly to ensure the sand takes the shape. Gently invert the mold to release your sand structure. Molds include designs for walls, bridges, and towers.
- **Utilizing Tools:** The 2 multi-use tools are designed for various functions:
 - Use the flat edge for cutting and shaping.
 - Use the rake-like edge for creating textures or leveling surfaces.
 - Use the scoop for digging and transferring sand.
- **Creative Play:** Experiment with different combinations of molds and tools to build unique sandcastles and landscapes. The sand's properties allow for repeated reshaping without drying out.

4. MAINTENANCE & STORAGE

- **Clean-up:** Kinetic Sand is easy to clean. Gather loose sand into a large ball and use it to pick up smaller bits of sand from the play area.
- **Storage:** When play is complete, store all Kinetic Sand, molds, and tools back into the original product box. The box is designed for convenient storage. Ensure the sand is kept in a clean, dry environment.
- **Longevity:** Kinetic Sand is designed to never dry out, maintaining its unique properties over time.

5. TROUBLESHOOTING

- **Sand feels different:** Kinetic Sand is made with natural sand and polymers. If the texture seems off, ensure it hasn't come into contact with water or excessive humidity. If it does get wet, spread it out to air dry completely.
- **Difficulty molding:** Ensure the sand is clean and free from debris. The sand should naturally stick to itself. If it's too spread out, gather it into a larger mass before attempting to mold.
- **Sand mixed with other materials:** While Kinetic Sand is non-toxic, it is recommended to keep it separate from other play materials to maintain its unique properties and cleanliness.

6. SPECIFICATIONS

Feature	Detail
Brand	Kinetic Sand
Model Name	Kinetic Sand
Model Number	6044142
Age Range	36 months - 5 years
Sand Weight	3 lbs (1.36 kg) Kinetic Sand Beach Sand
Included Components	6 Molds, 2 Tools, 1 Transformable Sand Box, 1 Instruction Guide
Material	Plastic
