- **Storage:** When not in use, always store your reading glasses in the provided felt case or a hard protective case to prevent scratches and damage.
- **Handling:** Always handle glasses by the frame, not the lenses, to avoid smudges and potential damage.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Vision is blurry or distorted.	Lenses are dirty or smudged. Incorrect magnification strength.	Clean lenses thoroughly. Ensure the chosen magnification (1.5x) is appropriate for your needs. Consult an eye care professional if issues persist.
Glasses feel uncomfortable or slip.	Improper fit.	Adjust the glasses gently. The spring hinges provide some flexibility. If discomfort continues, professional adjustment may be required.
Scratches on lenses.	Improper cleaning or storage.	Always use a microfiber cloth and lens cleaner. Store glasses in their protective case when not in use. Note that scratch-resistant coating reduces, but does not eliminate, scratches.
