

ELECOM ESL-702

ELECOM Security Wire Cylinder Lock NanoSaver (2.5x6) Compatible, Normal Key ESL-702 Instruction Manual

1. INTRODUCTION AND OVERVIEW

This manual provides instructions for the ELECOM Security Wire Cylinder Lock, model ESL-702. This device is designed to protect your laptop or tablet from theft by securing it to a compatible security slot. It features a robust design with a flexible wire and a cylinder lock mechanism.

- **Theft Prevention:** Attaches to a security slot to protect computers and tablets.
- **Flexible Design:** Features a 90-degree head swing function and 360-degree head rotation for versatile positioning.
- **Surface Protection:** The wire is coated to prevent scratches on desks and other surfaces.
- **Key Management:** Various key types are available to suit different environments. This model uses a normal key system, allowing individual management for each computer.
- **Important Note:** When ordering multiple units, the same key number may be included depending on the order quantity.

2. SETUP

Follow these steps to set up your security wire lock:

1. Identify the NanoSaver (2.5x6mm) security slot on your laptop or tablet.
2. Loop the wire around a sturdy, immovable object such as a desk leg or heavy furniture.
3. Insert the lock head into the security slot on your device.
4. Insert one of the provided keys into the cylinder lock and turn it to secure the lock head in place. Remove the key.

Image: The ELECOM Security Wire Cylinder Lock showing the wire, keys, and lock mechanism.

3. OPERATING INSTRUCTIONS

To lock and unlock your device:

- **To Lock:** Ensure the lock head is fully inserted into the security slot. Insert a key and turn it clockwise until the lock mechanism engages. Remove the key.
- **To Unlock:** Insert the correct key into the cylinder lock and turn it counter-clockwise. The lock head will release from the security slot.

Troubleshooting Tip: If the lock feels stiff or difficult to operate, adjust the insertion angle or method of the lock blade and press the lock button firmly. Do not force the key or lock mechanism.

4. MAINTENANCE

To ensure the longevity and proper function of your security wire lock:

- Keep the keys in a safe and memorable location. Consider having a backup key stored separately.
- Avoid exposing the lock mechanism to excessive dust, dirt, or moisture.
- Do not apply excessive force when inserting or removing the key, or when engaging/disengaging the lock.
- The wire is coated with soft PVC to prevent scratches. Avoid sharp objects that could damage this coating.

5. TROUBLESHOOTING

If you encounter issues with your security wire lock, refer to the following:

- **Lock is stiff or difficult to engage/disengage:** Try changing the insertion angle or method of the

lock blade into the security slot. Press the lock button firmly. Ensure the security slot on your device is clean and free of obstructions.

- **Key does not turn:** Ensure you are using the correct key for this lock. Do not force the key. Check for any foreign objects in the keyhole.
- **Lock head does not fit into the security slot:** Verify that your device has a NanoSaver (2.5x6mm) security slot. This lock is specifically designed for this slot type.

If problems persist, please contact ELECOM customer support.

6. SPECIFICATIONS

Product Type	Cylinder lock integrated security wire
Model Number	ESL-702
Compatible Slot Size	NanoSaver (2.5x6mm)
Key Type	Normal Key
Cylinder Diameter	11mm
Set Contents	Cylinder lock with wire (with pad), Keys x 2, Binding band
Head Dimensions (H x W x D)	26.4mm x 11mm x 19.5mm
Head Material	Zinc alloy
Wire Length	2.0m
Wire Thickness	4.4mm
Wire Material	Steel + Soft PVC coating
Wire Color	Black
Weight	Approx. 112g
Materials	Polyvinyl chloride, Zinc, Alloy steel

7. WARRANTY INFORMATION

No specific warranty information is provided in this manual. Please refer to the product packaging or the ELECOM official website for details regarding warranty terms and conditions.

8. SUPPORT

For product inquiries or technical assistance, please contact the ELECOM General Information Center:

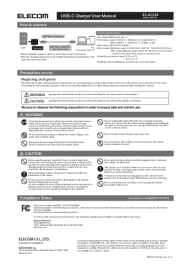

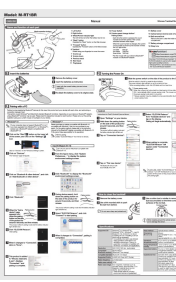

Telephone: 0570-084-465

FAX: 0570-050-012

Operating Hours: 10:00 - 19:00 (Year-round)

Please have your product model number (ESL-702) ready when contacting support.
