### Yaheetech Yaheetech 59 Inch Bird Cage

## Yaheetech 59-inch Dome Open Top Bird Cage Instruction Manual

Model: Yaheetech 59 Inch Bird Cage

Brand: Yaheetech

### 1. PRODUCT OVERVIEW

---

This manual provides detailed instructions for the assembly, operation, and maintenance of your Yaheetech 59-inch Dome Open Top Bird Cage. Designed for small to medium-sized birds such as canaries, cockatiels, and lovebirds, this cage offers a spacious and interactive environment.

Key features include an interactive open top, a detachable rolling stand with locking casters, and convenient feeder doors for easy access.

Figure 1: Fully assembled Yaheetech 59-inch Dome Open Top Bird Cage.

## 2. SAFETY INFORMATION

---

- Ensure all parts are securely fastened before placing your bird inside the cage.
- Regularly inspect the cage for any damaged or loose components to prevent injury to your pet.
- Keep small parts and tools away from children and pets during assembly.
- Place the cage on a flat, stable surface to prevent tipping.

## 3. SETUP AND ASSEMBLY

---

Please follow these steps carefully for proper assembly. It is recommended to have a second person assist with some steps.

### 3.1. Parts List

Before beginning assembly, verify that all components are present and undamaged. Refer to Figure 2 for a visual representation of the parts.

Figure 2: All components of the bird cage, including cage panels, stand parts, perches, and feeding bowls.

- Cage Panels (Front, Back, Sides, Top)
- Base Frame
- Curved Stand Legs (4)
- Storage Shelf
- Casters (4, 2 with locking devices)
- Removable Grate
- Slide-out Tray
- Wooden Perches (2)
- Stainless Steel Feeding Bowls (2)
- Bowl Holders (2)
- Assembly Hardware (Screws, Nuts, Allen Wrench)

### 3.2. Assembly Steps

#### 1. Assemble the Base Stand:

- Attach the four curved stand legs to the base frame using the provided screws and Allen wrench. Ensure they are securely tightened.
- Screw the four casters into the bottom of the stand legs. Two of the casters have locking mechanisms; ensure these are installed on the same side for easier access.
- Place the wire storage shelf onto the designated hooks on the stand legs, securing it with the small screws.

Figure 3: Components of the detachable rolling stand, including legs, base, and storage shelf.

Figure 4: Detail of the rolling casters, highlighting the locking device for stability.

## 2. Assemble the Cage Body:

- Connect the side panels to the front and back panels by aligning the hooks and loops. Ensure all connections are firm.
- Attach the arched top panels to the assembled cage body. Secure the top panels using the integrated clips.

## 3. Place Cage on Stand:

- Carefully lift the assembled cage body and place it onto the top frame of the stand. Ensure the side buckles on the cage base align and secure onto the stand frame.

Figure 5: The bird cage body placed securely on its detachable rolling stand.

#### 4. Install Grate and Tray:

- Slide the removable grate into the bottom of the cage, ensuring it rests securely above the tray slot.
- Slide the plastic slide-out tray into the designated slot beneath the grate.

#### 5. Attach Feeding Bowls and Perches:

- Install the bowl holders onto the cage bars at the desired height using the provided screws. Place the stainless steel feeding bowls into the holders.
- Insert the wooden perches through the designated holes in the cage bars. One perch is for the main cage interior, and the other is for the open top feature.

### 3.3. Assembly Video Guide

For a visual guide on the assembly process, please watch the official Yaheetech video below:

## 4. OPERATING INSTRUCTIONS

#### 4.1. Interactive Open Top

The cage features an interactive open top design. The two arched top panels can be opened and secured with the provided wooden perch, allowing your bird to stand on top of the cage for supervised out-of-cage time. When not in use, the top panels can be closed to provide a secure, enclosed environment.

Figure 6: The open top feature of the cage, showing how the perch can be used to keep the top panels open for bird interaction.

#### 4.2. Feeder Doors

The cage is equipped with feeder doors that allow external access to the feeding bowls. This design minimizes disturbance to your bird when refilling food or water. Simply unlatch the small door, slide out the bowl, refill, and slide it back in, then secure the latch.

#### 4.3. Mobility and Stability

The detachable rolling stand allows for effortless movement of the cage. Utilize the four 360-degree swivel casters to reposition the cage as needed. To ensure stability and prevent accidental movement, engage the locking devices on two of the casters once the cage is in its desired location.

### 5. MAINTENANCE AND CLEANING

Regular cleaning is essential for maintaining a hygienic environment for your bird.

- **Daily Cleaning:** Remove and clean the slide-out tray and feeding bowls daily. Wash with warm,

soapy water and rinse thoroughly. Ensure they are completely dry before returning them to the cage.

- **Weekly Cleaning:** Remove the bird from the cage. Remove all perches, toys, and the bottom grate. Clean the entire cage, including bars and base, with a bird-safe cleaner or a solution of warm water and mild soap. Rinse thoroughly and allow all parts to dry completely before reassembling and returning your bird.
- **Deep Cleaning:** Periodically, a more thorough cleaning may be necessary. Disassemble the cage as needed to access all surfaces for cleaning.

## 6. TROUBLESHOOTING

This section addresses common issues that may arise during the use of your bird cage.

- **Issue: Top clips do not hold securely.**  
*Solution: For added security, consider using small zip ties to reinforce the top clips, ensuring the top panels remain firmly in place.*
- **Issue: Bird slides on vertical bars or has difficulty perching.**  
*Solution: While the cage features vertical bars, ensure the provided wooden perches are installed correctly. You may also add additional natural wood perches of varying diameters to provide more comfortable and stimulating perching options for your bird.*
- **Issue: Feeding bowls are not tight or slide.**  
*Solution: Ensure the screws securing the bowl holders are tightened sufficiently. If issues persist, you may need to adjust the position of the holders or consider using alternative bowls designed for a tighter fit.*
- **Issue: Sunroof perch is too long.**  
*Solution: The wooden perch for the open top is designed to span the width when the top is open. If it appears too long for your specific setup, it can be used diagonally or carefully trimmed/notched to fit your preference, ensuring it remains stable for your bird.*

## 7. SPECIFICATIONS

Feature	Detail
Brand	Yaheetech
Model Name	Yaheetech 59 Inch Bird Cage
Item Weight	22.93 Pounds
Product Dimensions (L x W x H)	23.5" x 23.5" x 59"
Material	Iron & Plastic & Solid Wood
Color	Black
Bar Spacing (Gap Size)	15 Millimeters (0.6 inches)
Target Audience	Birds (Canary, Cockatiel, Lovebirds, etc.)
