

Nespresso EN500W

Nespresso Lattissima One Original Espresso Machine by De'Longhi (Model EN500W) - User Manual

Model: EN500W | Brand: Nespresso

1. PRODUCT OVERVIEW

The Nespresso Lattissima One Original Espresso Machine by De'Longhi (Model EN500W) is designed to bring high-quality cappuccino and latte macchiato to your home. It features an innovative fresh milk system for simplified drink preparation. The machine operates with Nespresso Original capsules and includes a high-pressure pump, fast heat-up, eco-mode, and automatic energy-saving functions.

Key Features:

- Single-serve system for espresso and milk-based drinks.
- Integrated fresh milk system for automatic frothing.
- Dishwasher-safe milk jug for easy cleaning.
- Compact design to fit any kitchen space.
- High-pressure pump and fast heat-up system.
- Eco-mode for low energy consumption and automatic energy-saving function.
- Compatible exclusively with Nespresso Original capsules.

2. SETUP

1. **Unpack the Machine:** Carefully remove all packaging materials and place the machine on a stable, flat surface.
2. **Rinse Components:** Before first use, rinse the water tank, milk jug, and drip tray with fresh drinking water.
3. **Fill Water Tank:** Fill the water tank (located at the back of the machine) with fresh drinking water. The tank has a capacity of approximately 33.8 ounces (1 liter).
4. **Position Drip Tray and Cup Support:** Ensure the drip tray and cup support are correctly placed. The cup support can be adjusted or removed to accommodate different cup sizes.
5. **Power On:** Plug the machine into a power outlet and press the power button. The indicator lights will blink as the machine heats up. It is ready when the lights stop blinking.

3. OPERATING INSTRUCTIONS

3.1. Preparing Milk-Based Drinks (Cappuccino, Latte Macchiato)

1. **Fill Milk Jug:** Open the milk jug lid and fill it with the desired amount of fresh milk. Ensure it does not exceed the 'Max' fill line.
2. **Attach Milk Jug:** Securely attach the milk jug to the machine's milk frother spout.
3. **Place Cup:** Place your cup under the coffee outlet and milk frother spout. Adjust the cup support if necessary.
4. **Insert Capsule:** Lift the lever, insert a Nespresso Original capsule, and close the lever.
5. **Select Drink:** Press the dedicated button for Cappuccino or Latte Macchiato. The machine will automatically froth the milk and then brew the coffee into your cup.

3.2. Preparing Espresso

1. **Place Cup:** Place your preferred cup under the coffee outlet. Adjust the cup support if necessary.
2. **Insert Capsule:** Lift the lever, insert a Nespresso Original capsule, and close the lever.
3. **Select Cup Size:** Press the appropriate button for your desired espresso size (e.g., Espresso or Lungo). The machine will brew the coffee directly into your cup.

4. MAINTENANCE

4.1. Cleaning the Milk System

The milk jug is dishwasher safe. For optimal hygiene and performance, it is recommended to disassemble and clean the milk jug components after each use. Rinse all parts under running water or place them in the dishwasher.

4.2. Emptying Used Capsule Container

The machine automatically ejects used capsules into an internal container. Regularly empty this container to prevent blockages. The container can hold several used capsules before needing to be emptied.

4.3. Cleaning the Drip Tray

The drip tray collects any excess liquid. Empty and clean the drip tray regularly to maintain hygiene and prevent overflow.

4.4. Descaling

Regular descaling is crucial for maintaining the machine's performance and longevity. Refer to the full product manual for detailed descaling instructions and recommended descaling solutions.

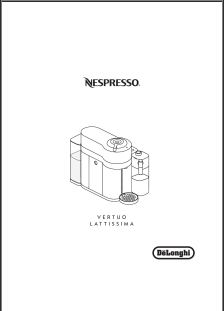

5. SPECIFICATIONS

Brand	Nespresso
Model Number	EN500W
Color	Silky White
Product Dimensions	6.06"D x 12.75"W x 10.07"H
Item Weight	9.24 pounds
