1. INTRODUCTION

Thank you for choosing the My4Sons Adjustable Telescoping Wand. This manual provides essential information for the safe and effective use of your new product. This telescoping wand is designed to extend your reach for various spraying tasks, compatible with backpack and handheld sprayers featuring a 3/8" hose connection. Its adjustable length and included accessories make it suitable for a wide range of applications, from garden care to high-reach cleaning.

14-ft Adjustable Telescoping Wand

fit Any Sprayer with
3/8ths inch Hose

2. SAFETY INFORMATION

Please read and understand all safety instructions before operating the telescoping wand. Failure to follow these instructions may result in injury or property damage.

- Always follow safety guidelines when using pressure washers and sprayers.
- Keep hands and face away from the spray nozzle during operation.
- Wear appropriate protective gear, including eye protection, gloves, and suitable clothing, to prevent exposure to sprayed materials.
- Dispose of chemicals responsibly according to local regulations and product instructions.
- Always follow the manufacturer's instructions for your specific sprayer or pressure washer.
- Ensure all connections are secure before operating to prevent leaks and loss of pressure.
- Do not use the wand near electrical lines or equipment.

- Maintain a stable footing when operating the wand, especially when extended to its full length.

3. PACKAGE CONTENTS

Verify that all items listed below are present in your package:

- 14-ft Adjustable Telescoping Wand
- Nozzle Kit (various spray patterns)
- 3/8" Barb Adapters
- Hose Clamps

Figure 3: Detailed view of the nozzle kit, 3/8" barb adapters, and hose clamps provided for versatile use.

4. SETUP INSTRUCTIONS

Follow these steps to prepare your telescoping wand for use:

1. **Attach Adapters:** Select the appropriate 3/8" barb adapter from the kit that matches your sprayer's hose. Securely attach it to the wand's inlet connection.
2. **Connect Hose:** Connect your sprayer's 3/8" hose to the barb adapter on the telescoping wand. Use the provided hose clamps to ensure a tight, leak-free connection.
3. **Select Nozzle:** Choose a nozzle from the nozzle kit based on your spraying requirements (e.g., fine mist, jet stream, wide fan). Attach it firmly to the end of the telescoping wand.
4. **Initial Check:** Before introducing chemicals, connect the wand to your sprayer with water and test for any leaks or loose connections. Adjust clamps or connections as necessary.

Figure 4: The telescoping wand properly connected to a backpack sprayer, demonstrating compatibility.

5. OPERATING INSTRUCTIONS

The My4Sons Adjustable Telescoping Wand is designed for user-friendly operation, allowing you to reach elevated areas with ease.

1. **Adjusting Length:** To extend the wand, loosen the locking collars on each section, carefully pull the sections to the desired length (from 22 inches to 14 feet), and then firmly tighten the locking collars to secure the extension. Ensure each section is fully locked before use.
2. **Spraying:** Once connected to your sprayer and extended, activate your sprayer's pump. Use the wand's handle to direct the spray towards the target area. The ergonomic design allows for comfortable use over extended periods.
3. **High-Reach Applications:** This wand is ideal for reaching high surfaces such as rooftops, gutters, tall trees, and exterior walls without the need for ladders. Maintain a safe distance from the target and ensure stability.

Figure 5: An individual demonstrating the use of the extended telescoping wand to reach and spray a high roof peak.

Figure 6: A user holding the wand, highlighting the comfortable grip and the 3/8ths hose adapter connection.

6. MAINTENANCE

Proper maintenance ensures the longevity and reliable performance of your telescoping wand.

- **Cleaning:** After each use, especially when spraying chemicals, flush the wand thoroughly with clean water to prevent residue buildup and corrosion.
- **Inspection:** Regularly inspect the wand for any signs of wear, damage, or leaks. Check hose connections, nozzles, and locking collars for integrity.
- **Storage:** Store the wand in a clean, dry place, preferably in its retracted position, away from direct sunlight and extreme temperatures.
- **Nozzle Care:** Clean nozzles regularly to prevent clogging. If a nozzle becomes clogged, remove it and clear any obstructions.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your telescoping wand.

| Problem | Possible Cause | Solution |
|------------------------------------|--|---|
| No spray or weak spray | Clogged nozzle; Insufficient pressure from sprayer; Loose hose connection. | Clean or replace nozzle; Check sprayer's pump and fluid level; Tighten all hose connections. |
| Leaks from connections | Loose hose clamps; Damaged O-rings or gaskets; Incorrect adapter. | Tighten hose clamps; Inspect and replace O-rings/gaskets if worn; Ensure correct 3/8" adapter is used. |
| Wand sections do not lock securely | Locking collars not tightened sufficiently; Debris in locking mechanism. | Ensure locking collars are fully tightened; Clean any debris from the telescoping sections and collars. |

8. SPECIFICATIONS

| Feature | Detail |
|----------------------|--|
| Model Number | 635323083227 |
