Spyderco H03

Spyderco Warrior Hawk Utility Tomahawk User Manual

Model: H03 | Brand: Spyderco

INTRODUCTION

The Spyderco Warrior Hawk is a high-performance utility tomahawk designed for extreme reliability and versatility. It is crafted from tough D2 tool steel, ensuring maximum strength and durability for various applications, including utilitarian cutting, breaching, and close combat. This manual provides essential information for the safe and effective use, maintenance, and care of your Warrior Hawk.

SAFETY INFORMATION

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

The Spyderco Warrior Hawk is a sharp and potentially dangerous tool. Always handle with extreme care. Keep out of reach of children. Proper training and understanding of tomahawk use are recommended before handling. Always wear appropriate safety gear, including eye protection and gloves, when using this tool. Ensure your surroundings are clear of

people and obstacles before use.

SETUP AND INITIAL INSPECTION

Upon receiving your Spyderco Warrior Hawk, perform the following steps:

1. **Unboxing:** Carefully remove the tomahawk from its packaging, including the padded zipper pouch.

Image: The Warrior Hawk securely stored within its padded zipper pouch, ready for transport or storage.

2. **Sheath Inspection:** Inspect the custom-molded Boltaron sheath for any damage or defects. Ensure the snap-fit mechanism functions correctly, providing secure retention of the tomahawk head.

3. **Visual Check:** Examine the D2 steel head and G-10 scaled handle for any visible damage, such as cracks, chips, or loose components.
4. **Edge Condition:** Carefully check the sharpness and integrity of the cutting edges. The edges are zero-ground for superior geometry.
5. **Cleanliness:** Wipe down the tomahawk with a clean, dry cloth to remove any manufacturing residues or dust.

OPERATING INSTRUCTIONS

The Warrior Hawk is designed for a range of utility tasks. Always prioritize safety and proper technique.

- **Grip:** Maintain a firm and secure grip on the G-10 scaled handle. The handle's design provides excellent traction.
- **Cutting and Chopping:** For cutting tasks, ensure the target material is stable. Use controlled, deliberate strokes. The faceted cutting side is designed to maximize penetration.
- **Breaching:** When used for breaching, understand the material you are working with and apply force appropriately. The robust D2 steel head is built for demanding applications.
- **Storage:** When not in use, always store the Warrior Hawk in its custom-molded Boltaron sheath and preferably within the padded zipper pouch to protect the blade and prevent accidental injury.

MAINTENANCE

Proper maintenance will ensure the longevity and performance of your Warrior Hawk.

- **Cleaning:** After each use, especially if exposed to moisture or corrosive materials, clean the blade and handle thoroughly. Use mild soap and water, then dry completely.
- **Corrosion Protection:** The D2 steel blade is cloaked in a titanium carbonitride coating for corrosion protection. However, for long-term storage or use in humid environments, apply a thin layer of rust-inhibiting oil to the blade.
- **Sharpening:** Over time, the edge may dull. Use appropriate sharpening tools and techniques suitable for D2 tool steel to restore the edge. Maintain the original zero-ground edge geometry.
- **Storage:** Store the tomahawk in a dry environment, ideally in its sheath and padded pouch, to prevent moisture accumulation and protect the edge.

TROUBLESHOOTING

Common issues and their solutions:

Problem	Possible Cause	Solution
Dull Edge	Normal wear and tear from use.	Sharpen the blade using a suitable sharpening system for D2 steel.
Rust Spots	Exposure to moisture or corrosive substances without proper cleaning/oiling.	Clean the affected area immediately. Apply rust-inhibiting oil. Ensure proper drying and storage.
Sheath not holding securely	Debris inside sheath or damage to the sheath.	Clean the inside of the sheath. Inspect for cracks or deformation. If damaged, replace the sheath.

SPECIFICATIONS

Detailed specifications for the Spyderco Warrior Hawk (Model H03):

- **Overall Length:** 13.68 inches
- **Blade Length:** 5.85 inches
- **Edge Length 1:** 0.79 inches
- **Edge Length 2:** 2.17 inches
- **Blade Material:** D2 Tool Steel
- **Blade Finish:** Titanium Carbonitride Coating
- **Blade Edge:** Plain, Zero-ground
- **Handle Material:** G-10 Scaled (polypropylene plastic injection molded over a rigid aluminum core)
- **Color:** Black
- **Item Weight:** 2 Pounds
- **Included Components:** Warrior Hawk, Custom-Molded Boltaron Sheath, Padded Zipper Pouch
- **Model Name:** H03
- **UPC:** 716104700387
