Logitech G MK540

Logitech MK540 Wireless Keyboard and Mouse Combo User Manual

Model: MK540

INTRODUCTION

This user manual provides comprehensive instructions for the setup, operation, and maintenance of your Logitech MK540 Wireless Keyboard and Mouse Combo. Designed for reliable performance, this combo offers a comfortable and efficient computing experience with its full-size, spill-resistant keyboard and contoured mouse.

The Logitech MK540 combo utilizes a single tiny USB receiver with Unifying technology, providing a secure and stable wireless connection up to 10 meters away. Both the keyboard and mouse are engineered for long-lasting battery life, ensuring extended periods of use without frequent battery replacements.

SETUP

Follow these steps to set up your Logitech MK540 Wireless Keyboard and Mouse Combo.

What's in the Box

- Keyboard and mouse set
- Logitech Unifying receiver

Battery Installation

The keyboard requires 2 AAA batteries and the mouse requires 1 AA battery. Batteries are typically pre-installed or included in the packaging.

1. Locate the battery compartments on the underside of the keyboard and mouse.
2. Open the battery covers.
3. Insert the batteries, ensuring correct polarity (+/-).
4. Close the battery covers securely.

Connecting the Receiver

The Logitech MK540 uses a single USB receiver for both the keyboard and mouse.

1. Plug the Logitech Unifying receiver into an available USB port on your computer.
2. Ensure the keyboard and mouse are powered on. There is typically an On/Off switch on the underside of both devices.

3. Your computer should automatically detect and install the necessary drivers. This process may take a few moments.

OPERATING INSTRUCTIONS

Once connected, your Logitech MK540 combo is ready for use. Here are some key features and operational tips.

Keyboard Features

- **Full-Size Layout:** Provides a familiar typing experience with a complete set of keys, including a numeric keypad.
- **Spill-Resistant Design:** Engineered to withstand minor liquid spills, protecting internal components.
- **Abrasion-Resistant Key Printing:** Key labels are designed to resist fading over time.

- **Integrated Palm Rest:** Offers comfortable support for your wrists during extended typing sessions.
- **Adjustable Tilt Legs:** Two sets of adjustable legs allow you to choose between three typing angles for personalized comfort.
- **Hot Keys:** Dedicated media keys and other essential hot keys provide quick access to functions like volume control, play/pause, calculator, and battery check.

Mouse Features

- **Contoured Shape:** Designed to fit comfortably in either the right or left hand.
- **Soft Rubber Side Grips:** Enhance comfort and control during use.
- **Precise Cursor Control:** Offers enhanced tracking for accurate navigation.

Compatibility

The Logitech MK540 Wireless Keyboard and Mouse Combo is compatible with the following operating systems:

- Windows 10 or later
- Windows 8
- Windows 7
- Chrome OS

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Logitech MK540 combo.

Battery Life

- The keyboard batteries are designed to last up to 36 months.
- The mouse battery is designed to last up to 18 months.
- Battery life may vary based on usage and computing conditions.
- Replace batteries when performance degrades or the battery indicator light (if present) signals low power.

Cleaning

- To clean the keyboard and mouse, use a soft, damp cloth.
- Avoid using harsh chemicals or abrasive cleaners.
- For the spill-resistant keyboard, in case of a spill, gently wipe away the liquid and allow the keyboard to air dry completely before further use.

TROUBLESHOOTING

If you encounter issues with your Logitech MK540 combo, try the following troubleshooting steps.

Connectivity Issues

- **No Connection:**
 - Ensure the USB receiver is securely plugged into a working USB port.
 - Verify that both the keyboard and mouse are powered on.
 - Try plugging the receiver into a different USB port.
 - Move the keyboard and mouse closer to the receiver to rule out range issues. The effective range is up to 10 meters.
- **Intermittent Connection/Lag:**
 - Reduce interference by moving other wireless devices (e.g., Wi-Fi routers, cordless phones) away from the receiver.
 - Ensure there are no large metal objects between the devices and the receiver.
 - Check battery levels and replace if low.

Keyboard or Mouse Not Responding

- Replace the batteries in the affected device.
- Turn the device off and then on again.
- If using Logitech Options+ software, ensure it is up to date and correctly configured. Note that some users have reported specific browser compatibility issues with the software (e.g., Mozilla Firefox).

Unifying Receiver Compatibility

While the product description mentions "Unifying technology," some users have noted that the included receiver is a "Logi USB Receiver" which may not be compatible with existing Logitech Unifying receivers or devices. If you intend to use this combo with other Logitech Unifying devices, verify compatibility with Logitech's official support resources or software.

SPECIFICATIONS
