7. TROUBLESHOOTING

Minor Scratches or Nicks:

The engineered wood construction with paper laminate finish, while durable, can show minor nicks or scratches over time. Due to the natural distressing and variation in the dark cocoa color, small imperfections often blend in well. For more noticeable marks, a simple solution can be to use a crayon that closely matches the furniture's color to fill in the affected area. Gently rub the crayon into the scratch and then buff lightly with a soft cloth.

Loose Hardware:

If any part of the furniture feels wobbly or loose, check all screws and bolts and tighten them as necessary. Do not overtighten.

Drawer Issues:

If drawers are not opening or closing smoothly, check for obstructions in the glides. Ensure the drawer is properly aligned on its tracks. If the drawer pulls (knobs) become loose, tighten them with a screwdriver.
