KEY FEATURES

- **Built-in Omnidirectional Microphone:** Reliably picks up sound and is flexible for optimal positioning.
- **40mm Drivers:** Deliver clear and crisp stereo sound.
- **USB Connectivity:** Features a built-in soundcard for direct plug-and-play with a simple USB connection, eliminating the need for separate audio and microphone connections.
- **3.5mm Jack Connectivity:** Also supports connection via a 3.5mm audio jack for broader device compatibility.
- **In-Line Volume Control:** Conveniently located for easy volume adjustments.
- **Adjustable Design:** Includes an adjustable headband and earcups for a comfortable and personalized fit.

- **Sound Isolation:** Provides noise control for an improved audio experience.

Xtream H5

Built-in Microphone
The built-in microphone is omnidirectional which picks up sound with reliability and is flexible which allows you to adjust the position for optimal performance.

Comfortable Fit & Wear
The earcups and headband are adjustable to ensure the perfect fit, while the custom padding provides a soft comfortable fit.

Volume Control
With the conveniently located volume control, you can easily adjust the volume at your fingertips.

4-band 3.5 mm Jack
The 4-band 3.5mm Jack allows the headset to work directly with most mobile phone/audio devices.

SETUP GUIDE

1. **Connect the Headset:**
   - For USB connection: Plug the USB connector of the headset into an available USB port on your computer or device. The built-in soundcard will enable plug-and-play functionality.
   - For 3.5mm connection: Plug the 3.5mm audio jack into the corresponding audio port on your smartphone, tablet, or other compatible device.

2. **Adjust for Comfort:** Adjust the headband to fit comfortably on your head. The earcups are designed to sit over your ears.

3. **Position the Microphone:** Adjust the flexible omnidirectional microphone to your preferred position for clear voice capture.

4. **Initial Sound Check:** Play audio or make a test call to ensure sound output and microphone input are working correctly. Adjust volume using the in-line controls.

OPERATING INSTRUCTIONS

- **Volume Control:** Use the in-line volume control wheel or buttons (if present) on the headset cable to adjust the audio output level.

- **Microphone Usage:** Position the flexible microphone close to your mouth for optimal voice clarity. Ensure the microphone is not muted if you are experiencing issues with voice input.

- **Compatibility:** The headset is compatible with various devices including smartphones and tablets. For computers, ensure the correct audio input/output device is selected in your system settings if using the 3.5mm jack. For USB, it should be automatically recognized.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place when not in use. Avoid extreme temperatures and direct sunlight.
- **Cable Care:** Do not pull on the cable to disconnect the headset. Always grasp the plug firmly. Avoid sharp bends or kinks in the cable.

TROUBLESHOOTING

No Sound from Headset:

- Ensure the headset is properly connected to the device (USB or 3.5mm jack).

- Check the in-line volume control and increase the volume.
- Verify that the headset is selected as the default audio output device in your computer's sound settings.
- Test the headset with another device to rule out device-specific issues.

Microphone Not Working:

- Ensure the microphone is not muted (check for a mute button on the in-line control or software settings).
- Confirm the microphone is properly positioned and connected.
- Verify that the headset microphone is selected as the default input device in your computer's sound settings.
- Test the microphone with another application or device.

Poor Sound Quality:

- Check for loose connections.
- Ensure the audio source is of good quality.
- Adjust the volume to prevent distortion.
