

O2COOL FMS0003

O2COOL Personal Mini Misting Fan

Model: FMS0003

INTRODUCTION

Thank you for choosing the O2COOL Personal Mini Misting Fan. This portable, battery-operated fan provides a refreshing breeze and a fine mist to help you stay cool. Please read this manual carefully before use to ensure proper operation and maintenance.

SAFETY INFORMATION

- Do not immerse the fan in water.
- Keep out of reach of small children.
- Ensure batteries are inserted with correct polarity.
- Remove batteries if the fan will not be used for an extended period.
- Use only clean water in the misting reservoir.
- Avoid pointing the mist directly into electrical outlets or devices.

PACKAGE CONTENTS

- 1 x O2COOL Personal Mini Misting Fan

SETUP

1. Battery Installation

1. Locate the battery compartment on the back of the fan.
2. Open the battery compartment cover.
3. Insert 1 AA battery (not included), ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

OPERATION

1. To activate the fan, press the power button located on the front of the unit.
2. To activate the misting function, press the mist button.
3. For combined cooling, activate both the fan and misting functions simultaneously.
4. To turn off the fan, press the power button again.

CARABINER CLIP

With the included carabiner you clip your fan to anything! Clip it to your bag or belt.

MAINTENANCE

Cleaning

- Wipe the exterior of the fan with a soft, damp cloth.
- Do not use abrasive cleaners or solvents.
- Empty the water reservoir after each use to prevent residue buildup.

Storage

- Ensure the water reservoir is completely empty and dry before storing.
- Remove the AA battery if storing for an extended period to prevent leakage.
- Store the fan in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

- **Fan not turning on:** Check if the AA battery is inserted correctly and has sufficient charge. Replace if

necessary.

- **No mist:** Ensure the water reservoir is filled with water and the mist button is pressed. Check for any blockages in the misting nozzle.
- **Weak airflow:** Replace the AA battery with a fresh one.
