MoTu I22203

MoTu Avenger Motorcycle 3D Metal Puzzle Model I22203 Instruction Manual

Model: I22203

INTRODUCTION

This manual provides detailed instructions for assembling and caring for your MoTu Avenger Motorcycle 3D Metal Puzzle Model I22203. This kit allows you to construct a detailed metal replica of an Avenger Motorcycle using laser-cut metal sheets. No glue is required for assembly; parts are connected by bending tabs.

Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience.

SAFETY INFORMATION

- **Recommended Age:** This product is recommended for individuals aged 14 years and up. It contains small parts that may pose a choking hazard for younger children.
- **Sharp Edges:** Metal parts may have sharp edges. Handle with care to avoid cuts.
- **Small Parts:** Keep all small parts away from children and pets.
- **Ventilation:** Assemble in a well-lit and well-ventilated area.

PACKAGE CONTENTS

Upon opening the package, verify that all components are present and undamaged. The kit should contain:

- Laser-cut metal sheets with puzzle pieces.
- Step-by-step image instructions.

ASSEMBLY INSTRUCTIONS

The MoTu Avenger Motorcycle 3D Metal Puzzle is designed for assembly without the need for glue. Follow the included step-by-step image instructions carefully. A pair of small pliers or tweezers may be helpful for bending and twisting tabs.

- 1. Review Instructions:** Before detaching any parts, thoroughly review the entire instruction manual to understand the assembly sequence and identify all components.
- 2. Detach Parts:** Carefully detach each piece from the metal sheets. Use small clippers or twist gently to avoid bending or damaging adjacent parts.

3. **Identify Components:** Match the detached parts with the corresponding numbers or shapes in the instruction diagrams.
4. **Bend Tabs:** According to the instructions, bend the tabs on one piece and align them with the slots on another.
5. **Connect Parts:** Insert the bent tabs into the corresponding slots. Twist or fold the tabs on the underside to secure the connection. Ensure connections are firm but do not apply excessive force, which could damage the metal.
6. **Follow Sequence:** Proceed step-by-step, ensuring each connection is secure before moving to the next. Pay close attention to the orientation of parts.
7. **Forming Curves:** Some parts may require gentle curving. Use a cylindrical object (like a pen or dowel) to help form smooth curves if instructed.

OPERATING AND DISPLAY

Once assembled, your MoTu Avenger Motorcycle 3D Metal Puzzle is a static display model. It is not intended for play or rough handling.

- **Display Location:** Place the model on a stable, flat surface away from direct sunlight, excessive heat, or moisture to prevent discoloration or damage.
- **Handling:** Handle the model gently, preferably by its base or sturdy sections, to avoid bending or detaching delicate parts.

MAINTENANCE

To maintain the appearance of your metal puzzle model:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. Avoid using abrasive cleaners or solvents, which can damage the metal finish.

- **Avoid Moisture:** Do not expose the model to water or high humidity, as this may lead to tarnishing or rust.

TROUBLESHOOTING

If you encounter difficulties during assembly, consider the following:

- **Parts Not Fitting:** Double-check the part numbers and orientation against the instructions. Sometimes, a slight adjustment in the bend of a tab or slot may be necessary. Ensure you are not forcing parts.
- **Bent or Damaged Parts:** If a part is slightly bent, gently try to straighten it with pliers. If a part is severely damaged or broken, contact customer support for possible replacement options.
- **Missing Instructions/Pages:** If your instruction manual appears incomplete or has missing pages, please contact MoTu customer support for assistance.
- **Difficulty with Small Tabs:** Use fine-tipped tweezers or needle-nose pliers to manipulate small tabs and ensure they are properly inserted and twisted.

SPECIFICATIONS
