Amazfit A1702

Amazfit Cor Heart Rate, Activity + Sleep Tracker (Model A1702) User Manual

Your guide to setting up, operating, and maintaining your Amazfit Cor fitness tracker.

INTRODUCTION

The Amazfit Cor is a durable, water-resistant activity and sleep tracker designed to monitor your heart rate and daily activities. It features a bright IPS LCD color touchscreen, protected by 2.5D Corning Gorilla Glass within a marine-grade stainless steel housing. The device provides comprehensive information including messages, app notifications, and offers sports tracking for various activities. It also includes a 7-day weather forecast, alarms, timer, and stopwatch functions, with a battery life of up to 12 days on a single charge.

1. SETUP

1.1 Unboxing and Initial Charge

Upon opening the package, ensure all components are present:

- Amazfit Cor Smartwatch
- Charging Base
- User Guide (this document)

Before first use, fully charge your Amazfit Cor. Connect the charging base to a USB power source and place the smartwatch onto the base, ensuring the charging pins align. The screen will indicate charging status.

1.2 App Installation and Pairing

To utilize all features, download the official Amazfit app (Mi Fit app) from your smartphone's app store. Install the app and follow the on-screen instructions to create an account or log in. Enable Bluetooth on your smartphone and within the app, search for your Amazfit Cor (Model A1702) to initiate the pairing process. Confirm the pairing request on both your phone and the device screen.

2. OPERATING INSTRUCTIONS

2.1 Basic Navigation

The Amazfit Cor features a 1.23-inch color touchscreen. Swipe up, down, left, or right to navigate through menus and functions. Tap to select an option or confirm an action. Swipe right from the main watch face to return to the previous screen.

2.2 Activity Tracking

The device automatically tracks your daily steps, distance traveled, and calories burned. This data is synchronized with the Amazfit app for detailed analysis and historical trends.

2.3 Heart Rate Monitoring

The Amazfit Cor continuously monitors your heart rate. You can view your current heart rate on the device or access detailed graphs and historical data within the app. Ensure the device is worn snugly on your wrist for accurate readings.

2.4 Sleep Tracking

Wear the Amazfit Cor to bed for automatic sleep tracking. It records sleep duration, deep sleep, light sleep, and awake times. This information helps you understand your sleep patterns and improve sleep quality.

2.5 Notifications

Receive notifications for incoming calls, text messages, emails, and other app alerts directly on your wrist. Configure which app notifications you wish to receive through the Amazfit app settings.

2.6 Sports Tracking

The Amazfit Cor supports tracking for various sports activities including running, biking, walking, and swimming. Select the desired activity from the device's menu to start tracking. The device is 5 ATM certified for water resistance, making it suitable for swimming.

2.7 Additional Features

Access features such as a 7-day weather forecast, alarms, timer, and stopwatch directly from the device's menu. Customize alarm settings and view weather updates after syncing with your smartphone.

3. Maintenance

3.1 Cleaning

Regularly clean your Amazfit Cor and its band to prevent skin irritation and maintain device functionality. Use a soft, damp cloth to wipe the screen and band. Avoid using harsh chemicals or abrasive materials. Ensure the device is dry before charging.

3.2 Water Resistance

The Amazfit Cor is 5 ATM water-resistant, suitable for swimming and showering. However, it is not recommended for diving or high-pressure water activities. After exposure to saltwater, rinse the device with fresh water and dry thoroughly.

3.3 Charging Best Practices

To prolong battery life, avoid fully discharging the device frequently. Charge the device using the provided charging base and a certified USB power adapter. Do not expose the device or charging base to extreme temperatures.

4. TROUBLESHOOTING

Problem	Possible Solution
Device not turning on or charging	Ensure the charging pins on the device and base are clean and properly aligned. Try a different USB power source. Allow the device to charge for at least 30 minutes before attempting to turn it on.
Unable to pair with smartphone	Ensure Bluetooth is enabled on your phone and the Amazfit Cor is within range. Restart both your phone and the device. If previously paired, unpair the device from your phone's Bluetooth settings and the Amazfit app before attempting to re-pair.
Inaccurate heart rate or activity data	Ensure the device is worn snugly on your wrist, about one finger-width above your wrist bone. Clean the heart rate sensor on the back of the device. Ensure your personal information (height, weight) is accurate in the Amazfit app.
Notifications not appearing	Check notification settings within the Amazfit app and your phone's system settings to ensure permissions are granted. Ensure the device is connected via Bluetooth.
Screen unresponsive or frozen	Attempt to restart the device by pressing and holding the side button (if applicable) or by connecting it to the charger. If the screen is wet, dry it thoroughly before attempting to use the touchscreen.

For further assistance, refer to the FAQ section within the Amazfit app or visit the official Amazfit support website.

5. SPECIFICATIONS

Feature	Detail
