

Cat Craft Replacement scratching post

Cat Craft 20-inch Sisal Cat Scratching Post Replacement Manual

Model: Replacement scratching post

1. INTRODUCTION

Thank you for choosing the Cat Craft 20-inch Sisal Cat Scratching Post Replacement. This product is designed to replace worn-out scratching posts or extend existing Cat Craft cat furniture, providing a durable and satisfying surface for your cat's natural scratching instincts. Regular scratching helps maintain your cat's claws and protects your household furniture from damage.

2. SAFETY INFORMATION

- Always supervise your pet during initial use to ensure safe interaction with the product.
- Inspect the scratching post regularly for any signs of wear or damage. Discontinue use if the post becomes unstable or damaged.
- Keep the product away from moisture to prevent damage to the sisal material and structural integrity.
- This product is intended for pet use only. Keep out of reach of small children.

3. PACKAGE CONTENTS

Your package should contain the following item:

- 1 x Cat Craft 20-inch Sisal Cat Scratching Post Replacement

Note: Mounting hardware (bolts/studs) is typically not included with replacement posts. Please retain and use the existing hardware from your current cat furniture for installation.

20" SISAL CAT SCRATCHING REPLACEMENT POST FOR CAT CRAFT CAT SCRATCHER, MEDIUM (20") GRAY

Image 1: Cat Craft 20-inch Sisal Cat Scratching Post Replacement, showing its dimensions of approximately 3.25 inches in width and 20 inches in height.

4. SETUP INSTRUCTIONS

This replacement post is designed for easy installation onto compatible Cat Craft cat furniture, including the Cat Craft Cat Scratch Post 20", Cat Craft Three-Tier Cat Tree, Cat Craft 3-Story Lookout, and Cat Craft Multi-Level Cat Condo.

1. **Identify the Old Post:** Locate the scratching post on your existing cat furniture that needs replacement.
2. **Remove the Old Post:** Carefully unscrew the old scratching post from the cat furniture. This usually involves twisting the post counter-clockwise or unscrewing bolts from the top or bottom sections.
3. **Install the New Post:** Align the new Cat Craft 20-inch Sisal Cat Scratching Post Replacement with the threaded connection points on your cat furniture. Screw the new post clockwise until it is securely fastened. Ensure it is tight and stable to prevent wobbling during use.
4. **Check Stability:** Gently test the stability of the newly installed post to confirm it is firm and safe for your cat.

5. OPERATING (USAGE)

The sisal scratching post provides an ideal surface for your cat to engage in natural scratching behavior. This activity is crucial for their physical and mental well-being, helping to:

- **Groom Claws:** The coarse and fibrous texture of the sisal rope helps remove the outer layers of your cat's claws, keeping them healthy and sharp.
- **Stretch and Exercise:** Cats often stretch their bodies while scratching, promoting flexibility and muscle tone.
- **Mark Territory:** Scratching is a way for cats to mark their territory visually and with scent glands in their paws.
- **Relieve Stress:** Scratching can be a stress-relieving activity for cats.

To encourage your cat to use the new post, you can sprinkle catnip on it or dangle a favorite toy nearby.

6. MAINTENANCE

Proper maintenance will extend the life of your Cat Craft Sisal Scratching Post Replacement:

- **Cleaning:** For light cleaning, gently brush off any loose fur or debris. If necessary, spot clean with a

damp cloth.

- **Care Instructions:** Hand wash only. Do not machine wash or tumble dry.
- **Avoid Moisture:** Keep the scratching post dry. Exposure to moisture can damage the sisal material and the post's structure.
- **Regular Inspection:** Periodically check the post for excessive wear, loose sisal, or any signs of damage. Replace the post when it becomes heavily worn to maintain its effectiveness and safety.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cat is not using the post.	Lack of interest, unfamiliarity, or preference for other surfaces.	Try sprinkling catnip on the post, placing it in a prominent location, or gently guiding your cat's paws to the surface.
Post feels wobbly after installation.	Not tightened sufficiently, incorrect hardware, or incompatible furniture.	Ensure the post is screwed in tightly. Verify that you are using the correct size and type of bolts/studs from your original cat furniture. Confirm compatibility with your specific Cat Craft model.
Post does not fit existing cat furniture.	Incompatibility with the specific model of cat furniture.	Double-check the compatibility information provided in the product description. This post is designed for specific Cat Craft models.
Sisal rope is unraveling quickly.	Heavy use or manufacturing defect.	This is normal wear and tear for scratching posts. If unraveling is excessive shortly after purchase, contact customer support.
